

300 XRSE (EFI) High Performance Buggy

The TrailMaster 300XRSE GoKart is a NEW FUEL INJECTED full-size, electric start buggy with a big, liquid cooled, 17.4 HP, 300cc CVT fully automatic powertrain complete with reverse. The new EFI Electronic Fuel Injection never fails to start no matter the temperature or weather. It's packed with great features like a digital speedometer/odometer, stainless steel performance muffler, rack and pinion steering and adjustable steering wheel, a rear view mirror and a bikini sunshade top for those sunny days on the trails!

The buggy also comes with bucket seats and five-point safety harnesses. The driver's seat is adjustable from 41 to 46 inches from the back of the seat back to the pedal so it can fit any size driver. The kart's beefy steel wheels feature 20X7-8 front & 22X10-10 tires rear and ride on adjustable heavy-duty shock absorbers and a 4-point rear swing arm for enhanced off-road handling. F&R Hydraulic disc brakes provide huge stopping power. Extra amenities include a parking brake, H&L beam head lights, all-around fenders, trailer hitch and large utility rack.

We have this model in red, blue, black, silver

TrailMaster 300 XRSE
