

MT13 Ltd Use of images policy and opt-out form

Images taken by us

Occasionally we may take photographs and/or other digital images (including video) of children and others taking part in our activities. We use these images as part of our monitoring of participants' development and progress, to report and promote our activities on our website and sometimes in other printed publications and social media.

Parents/guardians who may wish to photograph and/or video an MT13 activity

Generally, photographs and videos for family use are a source of innocent pleasure and pride, which can make children, young people and their families feel good about themselves. We want to encourage parents to photograph, video and post images for their own personal use whilst their children are taking part in our activities. We have no objection to photographs and images being posted by you on social media as long as you are aware that they are for personal use only and that you request the consent to do so from any other parents of children included in the photos or images.

Declaration

Please read the list below and complete, sign and return this form to MT13 Limited if you **do not** wish your child's photograph or video image to be used in the way described:
