• On Sale

### Description

Wrist and forearm strength can now be measured!

The Baseline wrist/forearm dynamometer features the time proven hydraulic system used in the industry accepted Baseline and Jamar hand dynamometers.

Simply and accurately measure the strength of the wrist muscles during flexion, extension, abduction and adduction and forearm muscles during supination and pronation.

For hand held use, the dynamometer can accommodate the Baseline single grip and dual grip handles. Maximum reading remains until the unit is reset. Strength readings can be view in both pounds and kilograms.

Comes with a portable carrying case.

Made in USA with a 1-year manufactures warrantee.

CE certified.
