

CREATE YOUR OWN WINDSOCK!

1. Color body of windsock.
2. Cut windsock body along dotted line. Tape or glue along blue strip to form a tube shape.
3. Punch a hole on each black dot & attach a piece of string for a handle.
4. Using tape or glue, attach streamers in the color(s) of your choice along the bottom of the windsock body.
5. Get outside and watch them flow in the wind!

*your windsock
should look a bit like
this when you're done!*
