COLOR CODE:

**Blue light:** The board has charge in it or is juiced up

**Red light:** The board needs to be charged at the earliest and is running out of power. It will blink and make a beeping noise

**Orange light:** The board is charging. It will only blink when the board is powered ON. The board cannot function while charging

CASE 1:
When there is no pressure on the rubber pads and the hoverboard is turned on, the indicator light will not glow

CASE 2:
When there is pressure/weight on both of the rubber pads, both the light indicators will glow blue

CASE 3:
The sensor indicator light will turn red and start beeping when the board is turned all the way around or partial pressure is applied

CASE 4:
The battery indicator light will blink orange when the SRX Pro is switched on while charging
