Congratulations on your purchase!
This user manual will help you assemble and operate your new scooter. Be sure to read **ALL OF THE INFORMATION** in this manual before riding.

**NOTE TO ALL RIDERS UNDER 8 YEARS OF AGE:** It’s very important that you get parental permission before riding your scooter.
Don’t Ride Until You Read This:

- **ALWAYS** wear a helmet when riding your scooter.

- **Always** be aware of local road laws, and follow them.

- **Do not** ride the scooter under the influence of drugs or alcohol.

- **Always** respect pedestrians.

- **Do not** ride under wet conditions. The scooter may slide from under your feet causing injury. Wet conditions may damage the scooter and void the warranty.
1. **Abuse** - We do not cover physical damage due to negligent care and extreme riding.

2. **Whenever you ride the K02 scooter**, you risk severe injury or even death from loss of control, collisions, and falls. Use caution and ride at your own risk.

3. **Do not** modify the product from the manufacturer’s original design.

4. **Never** exceed the 110 lb (50 kg) maximum load rating.

5. **Before riding** - It is advised to the user to check the limits of use according to the regulations road safety.

6. **Wear** a helmet, knee pads, elbow guards, wrist guards for optimum safety.

7. **Do not** use this scooter without shoes.

8. **Respect** pedestrians in all circumstances.

9. **Always** ride on smooth surfaces and away from motorized vehicles, do not ride at night in an unlit area.

10. **Do not** rotate the tiller on the scooter. Rotating the tiller will damage the scooter.

11. **Never ride** in water/sand/gravel/dirt or other debris, to avoid injury or damage your scooter and its components.

12. **Be aware** that the scooter can change behavior if it comes into contact with a different surface.

13. **Avoid** high speeds in descents. That can be dangerous.

14. **Before riding** - Check the adjustment of the steering system, and the status of the different components before each use.
15. **Brake** by pressing the brake with the rear foot. When braking heavily the brake may heat up, do not touch it until it has cooled down.

16. **Do not** put your fingers at the mechanical joints to avoid pinching.

17. An adult will have to assist a child to assemble the scooter.

18. Replace broken or damaged parts directly to ensure good behavior of the scooter and your safety. Check that the steering system is correctly adjusted and that all connection elements are tight and are not broken.

19. **Children under 2 years** old must **not use** this scooter. The supervision of an adult is in any case recommended for the use by a young child of this scooter.
Unpack

You should find the K02 scooter which comes fully assembled.

Remove all packaging material, then inspect each item for any accidental damage that may have occurred during shipping.
Get To Know Your Scooter

The scooter comes fully assembled.
Operations

UNFOLDING:

Step 1: Use your left hand to hold the handlebar and use your right hand to push folding knot towards the rear wheel.

Step 2: Pull up the tiller on the scooter while pushing the folding knot.

Step 3: Release the folding knot while the tiller is in the upright position.

FOLDING THE SCOOTER:

Step 1: Pull the folding knot up towards the handlebars, while pulling the folding knot up move the tiller down towards the deck.

Step 2: Once the scooter is folded release the folding knot and the scooter will be locked in the folded position.
UNFOLDING THE SEAT:

Pull the seat down towards the deck of the scooter. Rotate the seat to move the seat up or down the tiller for height placement. Then slide the seat into the slot on the tiller to lock the seat in place.
STEERING:
To steer the scooter you need to change your center of gravity. The scooter will turn right when you lean your body to the right and the scooter will turn left when you lean your body to left.
BRAKING:
Place one of your feet on the back fender to slow the scooter down. Please use the fender brake to come to a complete stop as well.

ADJUSTING THE TILLER HEIGHT:
To raise the tiller:
Step 1: Rotate the the tiller knob counter-clockwise.
Step 2: Press the metal piece inside the tiller.
Step 3: Pull up the tiller until the metal piece pops out of the tiller into the higher hole and rotate the tiller knob clockwise to tighten.

To lower the tiller:
Step 1: Rotate the the tiller knob counter-clockwise.
Step 2: Press the metal piece inside the tiller.
Step 3: Push the tiller down until the metal piece pops out of the tiller into the lower hole and rotate the tiller knob clockwise to tighten.

**Do not rotate the tiller on the scooter. Rotating the tiller will damage the scooter. ***
Before You Begin

RECOMMENDED RIDING PRACTICES

Parental supervision is required. Only use the scooter in a controlled environment that is free of potential traffic hazards and not on public streets. Avoid use in any areas where there are any motor vehicles operating. Have two hands on the handlebars at all times. Never allow more than one child at a time to ride the scooter. Never use near steps, slopes, driveways, hills, roadways, alleys or swimming pool areas.

Do not ride a scooter in wet weather. Scooters are intended and made to be used on concreted or smoothed paved areas that are flat, clean and dry, free from any loose debris such as rocks, sticks or gravel. Wet, slick or uneven and rough surfaces may impair traction and contribute to possible accidents. Avoid riding this scooter in mud, ice, puddles or water. Avoid excessive speeds that can be associated with downhill rides. Do not ride at night or when visibility is impaired.

SAFETY EQUIPMENT

Always ensure child is wearing proper protective equipment such as a certified safety helmet. A helmet may be legally required by local law, we advise you to check with your local law enforcement. User should always wear shoes that are fully enclosed with flat soles.
FAILURE TO USE COMMON SENSE AND HEED THE ABOVE WARNINGS FURTHER INCREASES RISK OF SERIOUS INJURY. USE AT YOUR OWN RISK AND WITH APPROPRIATE AND SERIOUS ATTENTION TO SAFE OPERATION. USE CAUTION.

WARNING: ALWAYS INSPECT SCOOTER PRIOR TO RIDING. Proper inspection and maintenance of your scooter can reduce the risk of injury. Always inspect your scooter before riding and regularly maintain it.
Maintenance & Repair

If you regularly clean and maintain your scooter, it will extend its life.

MAINTENANCE

Even though you now own one of the best scooters on earth, it is not indestructible and you have to maintain it if you want it to be fast, and to offer the same riding pleasure.

CLEANING YOUR SCOOTER

To keep it in good shape, you should clean your scooter as often as possible. Never use alcohol or any strong cleaning agents to clean your scooter. Doing so may damage point or fragile materials. Warm water and a clamp cloth should be enough. Avoid putting water directly on grip tape and never submerge your scooter in water.

STORAGE

When you’re not using your scooter store in a dry and cool location. Avoid storing your scooter outdoors because sun exposure can damage it’s appearance and may cause wear on the life of the scooter.
