RESOURCES FOR LITERACY

2024

LITERACY MATERIALS

for all learners and all educators!

Pioneer Valley Books provides educators with quality books, quality materials, and science-backed instruction. We are committed to providing high-quality solutions for all types of literacy instruction for pre-K through sixth grade students.

Pioneer Valley Books has a strong commitment to provide research-based literacy solutions to our school partners. Our products combine the science of literacy with the latest research on the principles of learning and how that translates into effective literacy resources that ensure students' success.

STAGE 1: NEEDS ASSESSMENT AND BACKGROUND RESEARCH

With the help of educators and literacy leaders, we identify challenges. After conducting background research, we then propose a resource or curriculum to address the needs of teachers and learners.

STAGE 2: DEVELOPMENT AND DESIGN

As we develop the solution, we conduct trials and testing with students and teachers in classrooms and schools. We use that data and feedback to guide improvements throughout the production process.

STAGE 3: IMPACT

We partner with researchers and educators to measure the effectiveness of our programs in classrooms across different settings with diverse student populations.

Reading

should not be presented to children as a chore, a duty.

It should be offered as a gift.

Connecting with Caretakers, Friends & Families = Successful Students!

Children who are read to at home will hear over one million words more from only five extra books a day! Those million words have a huge impact on a child's ability to comprehend and understand vocabulary.*

The inclusion of caretakers, families, and friends as reading partners:

- accelerates students' positive attitudes towards learning
- helps to expedite student achievement
- improves caretaker-teacher and teacher-student relationships
- enriches the overall school environment
