High-Quality Video Connectivity for Computer, Tablet & Phone

Looking to attach your legacy VGA/SVGA displays to HDMI only video devices.

The new **C-HDMI-VGA-AUX-G** is a high-quality but competitively priced video adapter, supporting up to 1080p resolutions from any standard HDMI connector.

Ideal for connecting your existing VGA/SVGA monitors or projectors to your HDMI video-out means you now don't need discard your legacy display devices.

Using a standard VGA D-sub connector complete with locking posts attached to a colour coded video cable which in turn is connected to a gold-plated HDMI male connector for improved signal transmission time after time.

Furthermore the device comes complete with a standard 3.5mm Phono port and supplied Phono cable to output audio from your HDMI device to a relevant Phono port on the VGA computer.
