Premium Quality HDMI Connectivity For Restricted Spaces

Looking for a quality HDMI - HDMI cable supporting 4K broadcast but needing a flat cable design for restrictive cable routing?

The LMS Data **C-HDMI10-FLT** is a flat-designed HDMI-HDMI cable that has a near compact and 2D cable surface which is ideal for routing under carpets, behind walls and other restrictive spaces that regular, round cables just cannot handle.

Of course being a flat design does not mean it deviates from the necessary HDMI standards. Confirming to HDMI 1.4 (or equiv, depending on generation type), the C-HDMI10-FLT is 4K (UHD) capable together with legacy 1080p and lower resolutions.

Supporting Ethernet and Audio Channel Return (ACR), the C-HDMI-FLT offered in a 10 metre cable run, ideal for most common A/V applications.

specifications:

Flat Design, 10-Metre HDMI - HDMI signal cable

Ideal for running flat against walls or cabinets

Supports latest 4K, UltraHD(tm) and legacy 1080p

Supple 28AWG conductors for easier cable routing

Maximum Consumer Resolution: 4092x2160 @ 30Hz (4K)*

Combined Ethernet and Audio Channel (ACR)

Gold-plated HDMI connectors for improved conductivity

Ideal for UltraHD(tm), 4K Media, Displays and Virtual Reality*

Ideal for A/V applications, broadcasting and Kiosks etc
