CAB-6U-BLNKPNL

6U, 19-Inch Solid Blanking Panel

Quality Cable Management Solutions For Cabinets

Need to tidy up your wall or floor enclosure, hiding those messy data or power cables? Need to create a pleasing installation for your customer?

The newly designed, lightweight **CAB-6U-BLNKPNL** is a must have solution for almost all types of data, telecom and server enclosures. Rackmount, quality built and finished in a hardwearing, powder-coated matt black design means it can fit in almost an vendor enclosure solution.

Fit between patching panels, rack servers, literally anything that is rack-mounted. It hides cables, power cordages and other equipment, normally at the back of the enclosure. It creates a tidy enclosure for your customer and makes it easy for post-installation maintenance.

Available in a choice of U hight and is available in solid or perforated designs.
