CAB-MAN-2U

2U Rack-mount
4-Ring Standard
Cable Management

Quality Cable Management Solutions For Cabinets

Need effective cabling routing within your data cabinet our enclosure? Need to maintain effective post installation maintenance of networking or PBX patching?

The new **CAB-MAN-2U** is a quality, alloy manufactured 4-ring cable management panel, 2U in height but unique in that it features larger, 8.6cm high management rings. Ideal for higher density cables, STP cables or indeed broadcast and RF coax cables as well as larger industrial and HT cables that need correct routing.

Fit between patching panels, network switches or any other device that has multiple ports and thus multiple patch routing, it will help tidy up almost all enclosure installations and make post-maintenance task much easier.

specifications:
