Multi-functional Wall Enclosures for SME Applications

SME Office Installations

Branch & Retail Offices

Educational Departments

Home Automation

Quality and security for all your networking, AV and security applications

Exceptional build-quality and a host of features. Everything you need in a compact, 19-inch, double sectioned wall enclosure.

Introducing the new range of 9, 12, 15 and 18U, 550mm deep wall enclosures offering all the excellent build quality you've come to expect with the EcoNetCab family, together with the added advantage of a two-section, 100mm deep hinged frame being easily attached to a suitable wall surface,

Ideal for pre and post installation access for patch panels, switches and other products that need rear cabling attachment, without having the hassle of non double-section wall cabinets in which panels for example need to be pulled forward, making installation difficult.

Ideal for all sizes and types of installations, including LANs, SoHo users, CCTV and telecom installations, with of course all the security and cable access you've come to expect in the EcoNetCab family.

## specifications:

### CAB-W18U-HDS550
