Compact Networking Enclosures For Smart Homes & Smart Offices

Looking to securely house
10-inch networking, PBX
or smart-home devices in
a cost effective manner?

The **CAB-W4U-EL10"** is an ultra compact member of the LMS Data EcoNetCab family. Highly compact in both height (4U) and width, it allows easy fitment of small-scale active and passive devices in which a full-size, 19-inch cabinet is not required.

Ideal for new residential home builds that feature smart-home devices, LAN connectivity and intelligent lighting, the CAB-W4U-EL10" offers a complete deployment solution with the added benefit of robust security.

Easy to install, pre-built to save you time, the enclosure is finished in a hard wearing, powder-coated matt black finish.

specifications:
