Quality Extra Depth Wall Enclosures - Flat Packed or Pre-Built

Looking for a competitively priced, fully functional Wall Enclosure with a choice of being flat-packed or pre-built?

The new range of LMS Data **CAB-WF55 series** wall enclosures come in an extra depth 550mm, ideal for larger rackmount devices like managed Switches, PBX or other extra deep equipment you need for your installation.

Available from stock in three popular sizes, **6U**, **9U** and **12U** heights, the enclosures enjoy the same high build quality and features seen on the rest of the LMS Data wall enclosure range but with the added option of being flat packed straight from our factory*.

Ideal for transporting to a customer or installation site with restrict transport space, or, if you prefer, have it expertly assembled here in the UK before despatch. The choice is yours.

Full assembly instructions and fixings are supplied with the flat-packed option together with keys for the lockable front toughed safety glass door.

enclosures - power distribution - cabling
