Wire-Free Audio For A Superior Sound

Looking for a Bluetooth(tm) high-performance stereo headphone set for an affordable price?

The new Compoint **CP-HBT35** ticks all the boxes when it comes to Bluetooth(tm) connectivity and audio performance. Featuring active noise cancellation to improve listening and reduce fatigue, large 40mm audio drivers for improve bass and tight treble and of course a totally comfortable over-head design.

With an on-board rechargeable battery design, with up to 14 hours continuous playback, on-board playback buttons and on-board microphone allowing hands-free phone calls from your Bluetooth(tm) smartphone.

Need to connect to a 3.5mm stereo phone jack? No problem, use the headphones as regular, wired stereo headphones to your HiFi and computer.

Ideal for travellers, the unique 'lay flat' design allows the **CP-HBT35** to be carried easily in luggage, a ruck sack and more besides.
