Feel-good typing with total wireless freedom

Looking for a low-cost but effective wireless solution for your keyboard and mouse applications?

The new Compoint **CP-KM007-W** is an exciting full-size UK keyboard and optical mouse kit featuring the very latest in driver-free 2.4Ghz wireless technologies, so no more clutter from USB cables at your desk!

Supplied with a nano-sized USB wireless transceiver that simply connects to any available USB port on your desktop, notebook, Mac, tablet or Raspberry PI instantly.

Generous wireless range, a low latency design means its responsive not just in general applications but for gamers too. The supplied 3-button optical mouse utilises high-resolution 1600 DPI optics, so you'll also get accurate mouse tacking on almost any surface.

Fully Plug n' Play, driverless in operation, the CP-KM007-W is ideal for Windows(tm), Mac(tm), Linux(tm) and Raspberry PI(tm) systems.

Advanced features:

Full-size UK Keyboard with Windows(tm) shortcut keys

2.4Ghz wireless technology - supplied wireless USB adapter*

Full-size, UK professional keyboard with numeric pad

Precision optical mouse with 3-button and scroll wheel

1600 DPI optics for perfect control on most surfaces

Totally Plug n' Play - no drivers needed for any OS

Better workflow at home, the office or for education

Ideal for Windows(tm), Mac(tm), Android(tm) and more

Ideal for computer projects inc. Raspberry(tm) PI systems

Exciting retail packaging - fits standard letterbox

* Single USB port required
