## Superior Stereo Acoustics For All Your Computing Needs

Looking for a low cost but higher quality Plug n' Play USB Stereo headphone for your computer or specific application?

The classic **DH-660-USB** is a true, Plug n' Play USB stereo headphone set which features excellent bass and treble characteristics and at the same time being comfortable for extended periods of use.

Featuring an innovative over-the-head design with integral, soft-cushion ear cups to help reduce unwanted, external sound and the integration of an adjustable, boom microphone, ideal for two-way conversations such as Skype(tm).

Ease of use has not been left out of the design of the DH-660-USB, so it includes a fully functional 'in-line' controller, so the user can adjust volume, mute sound and of course disable the microphone if required.

Ideal for almost all computing platforms and/or applications, Windows(tm), Mac(tm), Linux(tm) and other project hardware, the DH-660-USB is ideal for all your computing hardware applications.
