The Complete Wireless LCD NVR & Weatherproof Camera Solution

Need a complete, all-on-one residential or business CCTV system that's both easy to setup together with great features and HD picture quality?

Introducing the new KIT-MONIP4CAMIP by Blupont(tm). Coming complete with a stylish 10.1" colour, swivel LCD display which requires no separate computer. Built-in, optional storage capacities* of up to around 4TB or more*, HD colour, non-ghosting playback complete with full motion detection, email alerts and of course complete, easy-to-use setup screen.

Supplied with weatherproof, IP65 rated, interior/exterior bullet-style cameras with both WiFi and wired Ethernet interfaces. Night/day vision is supported with integral Infra Red (IR) LED illumination coupled with a wide angle, 3.6mm anti-fog glass optical design in full HD resolution.

Simple to setup, it works out of the box in minutes without the need for any messy setups via WiFi and supports advanced features including Wireless Cascading' to support longer CCTV camera distances.

Advanced Features:

Complete 4-Channel Colour NVR with 4 CCTV Cameras

Bundled x4 IP66 Weatherproof Night/Day Cameras

Advanced H.265 Encoding with up to HD 1080p Resolution

Easy-to-install HDU options - up to 4TB storage options*

Setup in seconds, use wither WiFi or wired Ethernet

Swivel 10.1 HD LCD colour display - lays flat

3.6mm optical glass, anti-fogging with IR support

HDMI video output, LAN and USB for external storage

Supports motion detection, recording, playback etc

Supports iOS(tm), Android(tm) for full remote control

Supplied with CCTV camera fixings, PSUs, Mouse, QUG, cables

*Multiple Storage Capacities Available
