CCTV and Security

Your ideal enclosure for small-scale networking and PBX deployment

Offering advanced design features for your wall-mount enclosures for all your networking projects.

The LMS Data EcoNetCab range of wall enclosures offer outstanding value for money coupled with superior build-quality and a host of features to make pre and post-installation easier with reduced installation time.

Available from 6U to 21U in a range of depths/widths and allow easy fitment to a range of wall constructions. Security is paramount to the range and all enclosures come with front, lockable left/right hinged door together with removable side panels for easy post maintenance procedures and universal-fit 19" uprights for all your active and passive devices.
