Effective Power Delivery in SoHo Data Enclosures

Looking for a cost-effective, quality solution for providing power to your 10-inch wide, SoHo wall cabinets and enclosures?

Introducing the new **PDU-3WS-H-SOHO** which is a compact, 10-inch wide general purpose PDU for supplying electrical power to other networking and active devices within a 10-inch wide data cabinet.

Durable in design, featuring standard, x3 UK Power sockets with integral, illuminated rocker on/off switch together within a compact form-factor, ideal for mounting horizontally.

Fitted with a generous 2.5 metre (approx.) power cable, terminated with a quality, 13 Amp UK plug, the PDU-3WS-H-SOHO is ideal for your 10-inch SoHo enclosure installations.

specifications:

Standard 1U, 10-inch wide (25.3cm with brackets)

x3 UK-socketed 13A power outlets

Illumination On/Off power-input rocker switch

Supplied rackmount brackets (1 pair)

Generous 2.5 m (approx) flex with fitted UK 13-amp Plug

Ideal for the LMS Data 10-inch SoHo Cabinet range etc

Robust aluminium design - rear earthing stud

Dimensions: 25.3cm (W) x 4.5cm (H) x 4.5cm (D)
