Enterprise level power distribution for data centres and more

Looking for high-performance power distribution for your heavily loaded systems?

The newly developed LMS Data 16A Schuko heavy-duty horizontal high-density PDU is ideal for high-loading device requirements including server, network and other industrial-type equipment functions such as broadcast and HVAC applications.

Combining a industry-standard IEC-C14 power input plug combined with a compatible, heavy load power flex means you can be assured this LMS Data PDU can work without problems, 24/7.

Ideal for data, telco and broadcast equipment that uses the industry standard Schuko type power input plugs.

Robust in design, with an integral neon illuminated rocker switch for assured functionality, the LMS Data PDU is designed to deliver maximum electrical power today and tomorrow.

specifications:

Horizontal, high-density Power Distribution Unit (PDU)

Industry standard IEC-14 plug

Compatible, heavy-load power cable

6x 16-Amp Schuko type power outlets

Robust, black aluminium design for industrial use

Neon on/off power switch for assured control

Maximum power rating - 4000W approx.

2.0 metre (approx.) power cordage

Ideal for data, telecom, broadcast and HVAC applications
