PDU-8WS-H-IEC-M-1U

Modular Power Input 19-Inch 8-Way IEC C-13 Plus IEC C-20 Input Socket

Modular Power Input Flex Options

8-Way IEC C13 Sockets

| Telecom & Networking | Data centres & Server farms | Broadcast & A/V | HVAC & Industrial |

Modular Power Distribution - Select **Your** Power Input Cable

Looking for a more 'tailor made' power solution for your data cabinet or other power requirements?

The new LMS Data range of fully *modular power* input PDUs is your ideal solution. Allowing for you, the customer to choose the length of input power cordage for the LMS Data PDU plus you can also choose the power socket such as UK Plug, heavy-duty commando 16/32Amp, IEC-14 for example.

Having the correct cordage length and power socket means you can now not only cut down installation deployment but also get a much tidier installation within the data cabinet, freeing up valuable space and reducing clutter, thus *increasing* system uptime.

Like the complete LMS Data PDU lineup, both quality and a long service life is built in, together with enhanced ergonomics including a robust, illuminated rocker switch, 1U, 19-inch profile and supplied cage nuts and bolts.

specifications:

Modular Power Input Power Distribution - IEC C-20 Socket

High-Density 8-Way IEC C-13 Output Sockets

19-inch (482.6mm) 1U Design

Choose your Power Input Cable Length and Socket Type**

Robust, black aluminium design for industrial use

Neon on/off power switch for assured control

Maximum power rating - 4000W, 10 Amps nominal*

Ideal for data, telecom, broadcast and HVAC applications

CE FC RoHS COMPLIANT

* Electrical Specifications Nominal
