Innovative Power Delivery At Your Desk, Kitchen or Bench

Need extensive power and data delivery for your desk or workbench?

The **PDU-C-2W-2USB-1RJ45** is a fully-featured power and data pod that simply clamps to a standard desk, bench or other common surface*. Stylish in design, it features 2x 13-Amp UK Power Sockets as well as 2x high-power (2.1AMP) USB charge ports, ideal for device charging.

Also featured is a CAT6 or equivalent UTP port which allows for example a pre-configured patch lead to be plugged into the CAT6 rear, thus providing a suitable Ethernet outlet for the desk surface.

Stylish and compact in design, the PDU-C-2W-2USB-1RJ45 provides a brushed aluminium design and is provided with adjustable rear clamps for secure fixing to desks or benches.

specifications:

Desktop, Bench or Work-surface Power Pod
