

PPAN-24-THRU

CAT5e 24-way Through Coupler Patch Panel

Built-in ease of maintenance.

Offering ease of maintenance and instant connectivity for both End Users and installers alike, the new LMS Data **PPAN-24-THRU** is your ideal solution for running the latest Networking, Voice and Telco applications.

Fully modular in design, the Patch Panel allows each RJ45 module to be replaced if necessary, say for example, running mixed media of both UTP and STP modules within the same 19" Patch Panel. Ideal for Fast Ethernet and Gigabit (1000BaseT) applications, the **PPAN-24-THRU** allows instant connectivity to any size of Network.

Using quality components throughout, the modules are made of ABS Plastic and feature gold conductors for low impedance levels, all secured within a metal framed enclosure. Full port ID comes as standard together with the option of modifying the port ID sequence.

Available now from leading LMS Data distributor – **Netbit (UK) Ltd**

Featuring..

24-Way UTP through coupler Patch Panel

Class-leading CAT5e/ISO-11801 compliant

Gold Plated, high conductive connectors

Supports Gigabit (1000BaseT) Ethernet, Telco

Modular, field replaceable outlets, clip & fit

Front numbered, 1U high, 19" design

Ideal for fast fit Structured Cabling installations
