

PPAN-24-VLC

CAT5e 24-way Vertical Punch down Patch Panel

Built-in ease of maintenance.

Setting new standards in both performance and quality, the new LMS Data **PPAN-24-VLC** Vertical Punch down Patch Panel series offers full Cat5e compliance with up to Gigabit Ethernet compliance if your network requires it.

Designed into a durable, full metal open chassis, this 24-Way, 1U high design is ideal for quick termination to the vertical IDC interconnect blocks and is the perfect match for Wall Mount enclosures which have little or no space for the regular rear facing IDC Patch Panels or other locales where space is at a minimum.

The LMS Data **PPAN-24-VLC** comes complete with rear cable anchor tabs; full TIA-568-A/B termination colours and front port number sequence. Ideal for both Data and Telecom applications, the Patch Panel is also incorporated under the Synthesis 25-Year structured cabling warranty for full piece of mind.

Available now from leading LMS Data distributor – **Netbit (UK) Ltd**

Featuring..

Vertical Punch down system for easy install
