Ultra Fast Multi-Format Memory Card Access Solutions

Looking for extra data transfer performance for your digital camera, smartphone or dashcam?

Introducing the new **USB3-CR-6P** which builds upon the award winning USB2.0 multi-format card reader/writer. Featuring the latest USB3.0 ultra-fast data transfer technology which translates up to an amazing 5Gbps data transfer rate from your existing memory card, meaning in the largest data files such as JPEGs, RAW and AVI, files can be transferred in an instant when connected to your computer's USB3.0 interface.

Made of quality materials throughout, the USB3-CR-6P is built to last and take the normal everyday punishment of your digital lifestyle. With the ability to read and write to almost all popular and future memory card formats including SD, MiniSD, MicroSD, CompactFlash and many more.

Compact, stylish and of course driverless for all popular operating systems.

specifications:

SuperSpeed USB3.0 - up to 5Gbps data transfers

Stylish and robust - Fits in your pocket or camera bag

Totally driverless - Works on all Operating Systems

Self-powered design with status activity LED

Transfer images, movies and more - up to x10 faster

Ideal for digital photography, movie making and more

Supports almost all memory card formats including:

SD, SDHC, SDXC, MiniSD, CompactFlash, Memory Stick

*MicroSD-HC, MMC, xD..and many more **
