Enabling the next generation of Dual-Band 802.11ac Adapters

Are you looking to upgrade your existing WiFi setup to the latest, high-speed 802.11ac technologies?

Or, are you wanting to fully take advantage of your latest Broadband 802.11ac router and want a fully immersed multimedia experience without the annoying 'buffering' or slow game responses when online

The new **WL-700AN-AC** allows an instant WiFi upgrade for your computer in an instant and with its integral high-gain antenna it is able to work further away and maintain high wireless speeds when compared to other vendor solutions.

And your security is our number one concern so the very latest in personal wireless encryption is built-in, including Plug n' Play support for Windows(tm)8.1, Mac OS X (10.6x or higher) and Linux(tm) runtime and all packaged in a stylish, small footprint design.
