Small On Size, But Big On 802.11n WiFi Performance

Looking for a fast 802.11n 300Mbps WiFi USB adapter in a tiny size?

The new **WL-700N-XSX** is your ideal partner for Windows(tm), Mac(tm), Linux(tm) or Raspberry Pi(tm) computers.

Featuring the latest generation of Nano ASIC WiFi processors enables an ultra-compact USB adapter with both high performance and a low power-drain, no matter what the application or computer its connected to.

Compact enough to remain as a *permanent* attachment in any vacant USB port, its an ideal solution for a user to upgrade from lower WiFi speeds in a matter of seconds. Using super-fast 300Mbps (802.11n) data transfers makes it an ideal solution for multimedia broadband streaming, cloud computing and of course general web applications.

Using both legacy and current advanced WiFi encryption technologies including WPA2, WPS, together with a soft AP function means the WL-700N-XSX is your ideal, permanent WiFi partner.

specifications:

802.11n 300Mbps/150Mbps WiFi
