MORPHEUS³⁶⁰™

TW2750 Series NEMESIS ANC Wireless Noise Canceling Bluetooth In-Ear Earbuds

■ Hi-Fi Quality Sound

we designed our Wireless Headphones with custom tuned 10mm Graphene Dynamic drivers to provide hours of listening enjoyment with balanced immersive sound. Enjoy listening to the finer details of your music or movies with powerful bass and experience the subtle nuances of better than CD quality.

■ 4 Mic Feed Forward Noise Cancellation

designed to detect and reduce background noise such as automobile traffic and airplane engines by up to 28dB to allow you to focus on what's important. We engineered our NEMESIS ANC Wireless Noise Canceling Headphones with 4 Microphones, 2 that measure the outside noise and 2 environmental noise-filtering microphones for crystal clear voice calls.

■ Extended 30-Hour Playtime

we built our Wireless Earbuds on the Bluetooth® 5.3 platform, allowing our NEMESIS ANC Wireless Headphones to communicate as Bluetooth® Low Energy devices, providing longer battery life for the listener and a stronger signal for better stability. Each Earbud is built to last for over 5 hours on a single charge. The Charging Case provides additional charging power to allow for a combined usage time of over 30 hours.

■ Physical & Digital Wind Noise Reduction

We custom designed the position of each microphone to minimize the effect of wind noise. Engineered with pass through tunnels in the external microphone chamber, the NEMESIS ANC Wireless Earbuds have some of the best wind noise reduction performance in its class.

■ OneTouch Media Controls

our OneTouch Media Controls provide total control of your Music, Videos and Media with the touch of a single button.
