MORPHEUS 360™

TW7850 Series PULSE ANC Hybrid Noise Canceling True Wireless Earbuds

■ High Resolution Digital Signal Processor

We designed our Wireless Headphones with High Resolution 96KHz/24bit processor for a truly immersive experience. We then added 10mm Graphene Dynamic drivers to accentuate their performance. Enjoy listening to the finer details of your music or movies in superior sound with powerful bass and experience the subtle nuances of better than CD quality.

■ 6 Mic Hybrid Noise Cancellation

Hybrid Noise Cancellation detects and virtually eliminates background noise such as automobile traffic and airplane engines by up to 40dB to allow you to focus on what's important. We engineered our PULSE ANC Hybrid Noise Canceling Headphones with 6 Microphones, that measure both the outside noise and how you hear the noise with the Earbuds in place, then we apply the Noise Cancellation.

■ Extended 40-Hour Playtime

we built our Wireless Earbuds on the Bluetooth® 5.2 platform, allowing our PULSE ANC Wireless Headphones to communicate as Bluetooth® Low Energy devices, providing longer battery life for the listener and a stronger signal for better stability. Each Earbud is built to last for over 7 hours on a single charge. The Charging Case provides additional charging power to allow for a combined usage time of over 40 hours.

■ Physical & Digital Wind Noise Reduction

We custom designed the position of each microphone to minimize the effect of wind noise. Engineered with pass through tunnels in the external microphone chamber, the PULSE ANC Wireless Earbuds have some of the best wind noise reduction performance in its class.

■ OneTouch Media Controls

our OneTouch Media Controls provide total control of your Music, Videos and Media with the touch of a single button.

Specifications:

- Connection: Bluetooth® Version 5.2
- Power: Built-in lithium battery
- Battery: 43mAh(per ear), 350mAh(battery box)
- Unit Driver: 10mm
- Built-in Microphone in Both Earbuds

Requirements:

- Bluetooth® Enabled Device

Includes:

- Left and Right Ear Earbud
- Charging Box
- One Pair Each Large, Medium, and Small Silicone Ear Tips
- USB Charging Cable
- User's Guide
