To use the device you have to connect your device to the PC, get the associated COM port to it and install the "Geoptik Flat Field Controller" application.

#### To Install "Geoptik Flat Field Controller" program

-Download the "zip" file via Link or QR code.

-Extract all the files, right-clicking on the "zip" file and clicking on "Extract All".

-Right Click on "Install Flat Field Controller.exe".

-Click on "Properties".

-If the "Unblock" box is shown check it and click on "Apply", otherwise skip this step.

#### -Click on"OK".

-Double-click on "Install Flat Field Controller.exe" and follow the instructions.

-The program may install some additional components like ASCOM platform, this installation may also require two reboot to complete.

#### To connect your device via USB and get the COM port associated:

-Open the "Device Manager" menu (the easiest way to get there as of Windows 10 version is: left-click on the

Start icon, type "Device" find the menu and click on it.).

-Open the submenu "Ports (COM and LPT)" (by clicking the arrow on the left).

-Plug the device to your PC.

-Find the newly connected device and take note of the associated COM port (on the right of the name).

-If you are having trouble with this step, please try using a different USB cable.

-Close "Device Manager" menu clicking on the top-right "X".

-Power your device.

-Procedure complete. Go to "Running the Geoptik Flat Field Controller"

#### To connect your device via Bluetooth and get the COM port associated:

-Power your device.

-Open the "Bluetooth and other devices settings" menu (the easiest way to get there as of

Windows 10 version is: left-click on the Start icon, type "Bluetooth" find the menu and click on it.).

-Click on "Add Bluetooth or Other Device".

-Close then "Bluetooth Settings" menu clicking on the top-right "X".

-Close the "Bluetooth and other devices settings" menu clicking on the topright "X".

-Procedure complete. Go to "Running the Geoptik Flat Field Controller"

### Running the "Geoptik Flat Field Controller"

Once you have installed the program and took note of the COM port to your device:

-Run the "Geoptik Flat Field Controller" app

-Open the "com port" dropdown menu.

-Select the correct COM port (if you can't find the COM port, make sure that the device is plugged or paired and

powered, then click the "Refresh" button).

-Click the Connect button

-Once the connection is completed, the "Brightness" and "On/Off" controls will become available.

-If your device is properly connected and powered, your program screen should look like this.

GEOP	TiK		A
Comm Port Disconnect		<u> </u>	ASCO
Brightness Powered device		- estera	0 Tum ON
🔿 ок		8	Cancel

-Using the slider, you can dimmer the light of your device.

-Using the "Turn ON" button, you can switch on the light of your device.

-Using the "OK" button, your device settings,like COM port and dimmer value, will be saved.

-Using the "Cancel" button, your unsaved changes of the settings will be discarded.
