### 2 SKIN SPA New York

The latest addition to Newbury Street, SKIN SPA New York might finally put an end to the Boston-New York rivalry. We can all agree that anti-aging services are a must as we get older and they know how to do it best here. Try the The Angie named after Angelina Jolie, which utilizes an exfoliating microdermabrasion, glycolic peel and laser rejuvenation or the Time Eraser, a personalized three-in-one treatment which includes a customized facial, exfoliation utilizing microdermabrasion or a power peel and laser therapy utilizing laser genesis or photolight.
