Celebrating Spa Week at Skin Spa New York

Fall Spa Week kicks off nationwide Monday October 17th through October 23rd; dozens of your favorite spas are offering \$50 treatments, including one of my favorite Newbury Street spas, **Skin Spa New York**. They've taken the event a step further and is offering \$50 treatments throughout the month of October.

I stopped by Skin Spa New York to celebrate Spa Week a little early and to indulge in a customized facial before my weekend trip to Foxwoods. My facial included a cleansing and exfoliating treatment, extractions, a mini-neck and shoulder massage, and a hydrating face mask. I left with my skin feeling ultra clean and hydrated and am looking forward to squeezing in one more appointment this month-- \$50 is an unbeatable price for these services.

In addition to Skin Spa New York, there are a number of area salons participating in Brookline and Newton. **Head to spaweek.com for a complete list of participating salons and \$50 treatments**
