Skin Spa opens on Newbury Street

On Wednesday, March 2, Skin Spa New York opened its premier Boston location at 284 Newbury Street at the intersection of Gloucester Street in Boston's Back Bay. The state of the art skin and spa retreat, with seven Manhattan locations, is known for its best-in-class skincare and beauty treatments as well as its highly trained staff and unique membership model. SKIN SPA New York's Boston location will be the company's first move outside of Manhattan.

"Since founding SKIN SPA 10 years ago, I've always hoped to expand into other cities, but it had to be the perfect fit. Bostonians are smart, savvy, health-conscious and forward-thinking, and we're both excited and honored to be able to bring our concept to city. Our model of navigating our client's skincare health is unique to the marketplace. Beyond providing a roadmap to skincare health, providing these luxury services at an affordable rate is new to the Boston market," said Thomas Elzner, Founder of SKIN SPA New York Skin Spa New York is located on the third floor of a historic brownstone overlooking the fashionable Newbury Street and will feature a forthcoming first floor retail space. The 3,100 square foot spa features 14 luxurious treatment rooms which blend Back Bay's classic charm with a modern, sleek atmosphere. Customized LED lighting and chandeliers illuminate the walls while exposed brick and hammered iron flooring is softened by accents of gray and white.
