Skin Spa New York Comes to Boston

Posted on [May 17, 2016](#)

I recently attended the grand opening party for a popular New York Skin Care spa that just opened in Boston. [Skin Spa New York](#) is located on Newbury and Gloucester, a beautiful space with surprisingly affordable services.

I tried the Oxy Trio Facial, which I desperately needed and the aesthetician had some excellent recommendations for improving my skin care routine. I appreciated that she gave general advice and didn't try to push a ton of their products, although I would like to check them out! I also had my eyebrows shaped and a chair massage, which were equally impressive!

Skin Spa New York's prices are already affordable, and they offer a monthly membership option where for \$60 a month you can choose one service (anything from a facial to a brow wax, massage, or sunless tan). Additional services are discounted and you receive special offers and discounts like a gift on your birthday!

I definitely plan to take advantage of the membership, and right now you can get it even cheaper for **\$125 for three months with their [Gilt City deal](#)**. If you're new to Gilt City, use my [referral link](#) for **\$20 off your first order**
