

HEALTHY HYDRATION

UPSCALE FILTER WHOLE HOME WATER SYSTEM

Introducing our New Upscale conditioning & de-scaling system. The simple and effective solution to hard water and contamination.

- ✓ The KDF55 chamber removes chlorine, heavy metals, and controls scale, bacteria, and algae in hot water. Its media is certified for drinking water treatment units' aesthetic effects.
- ✓ The Catalytic Carbon media removes chlorine, unpleasant tastes and odors, and other contaminants. It is certified for safety.
- ✓ The De-Scaling media prevents scale buildup on fixtures, pipes, and appliances by keeping hard water minerals suspended.

Requires No Salt or Regeneration

System Specifications:

	FTP6	FTP8	FTP10
De-scale Media	4 Liters	5 Liters	7 Liters
Catalytic Carbon	1 Cu. Ft.	1 Cu. Ft.	1 Cu. Ft.
Service GPM	6	8	10
Max Iron	0.5 ppm	0.5 ppm	0.5 ppm
Dimensions	10 x 10 x 64	10 x 10 x 64	10 x 10 x 64
Weight lbs.	60	62	64
