

Red Shield Plant

Level of Care: 🌿🌿🌿 | Homalomena Rubescens

Light: This plant likes indirect light and can survive in shadier areas, you will see more growth the more light it receives - just avoid harsh sunlight.

Water: Give this plant a good drink every week so the soil is always slightly moist. A native swamp plant, it loves humidity and regular misting.

Location: Great in most spots, including kitchens, bathrooms, living rooms and bedrooms. For pet lovers, note this plant is **toxic to animals**.

Tips: A fast growing plant, you will see lots of new leaves in warm rooms with diffused light. A low maintenance plant with all the impact, make sure to wipe dusty leaves with a damp cloth to keep its pores open and mist with warm water.
