"The people who are crazy enough to think they can change the world are the ones who do."-Steve Jobs.

We are making changes. Changing is uncomfortable but it is inevitable for growth. First, we are launching a digital catalog to be more agile in product releases. Second, we are enhancing our dropship programs to make it easier for our retailers to manage their e-commerce. Third, we are launching a "Bespoke-Limited" program to offer exclusive styles for our retailers to be more competitive in the market.

The Digital catalog will provide up-to-date information and global access to product information with high-resolution images. The enhanced drop ship program offers custom packaging services for retailers who chose to white label the line. Most importantly, our new "Bespoke-Limited" program will provide a more competitive edge for our retailers by enabling them to offer new and exclusive styles and colors monthly. Just imagine the ability to offer brand-new exclusive styles every month for your customers.

Belle Tress continuously offers many unique programs that no one else offers in the world. We offer private labels, custom orders, e-commerce creations, co-branding, and a long waited "Bespoke-Limited" program. We give you the option to create your own styles, and colors, and we even print your own boxes.

Located in Southern California, Belle Tress has been serving the industry and Hollywood celebrities for over forty years. Since we are our direct importers and manufacturers, we are the pioneers to create the Café Collection, with all lace front, all heat-friendly premium fiber, all partial or full lace, and/or monofilament tops. The most amazing creation that we pride ourselves on is the unique blend of multi-dimensional Café Collection colors and the softest texture in the industry.

We've taken the necessary supply lines to the next level by creating a Salon Collection of shampoo, conditioner, holding spray, and the newest, Salon Sea Salt Mist, all made in the USA. We invite you to join us in changing the way business has been done for so many years. We believe in offering the equal opportunity. If you have been considering becoming an entrepreneur in the alternative hair business to help restore the confidence of others, take that first step by contacting Belle Tress. Change is hard and uncomfortable, but it is inevitable for growth.

Ground Theory

Based on collected data, we learned the demands for edgy, but not too far out, contemporary but classic, long but not too long in the back, straight but some curve at the bottom, and the myriads of contradicting concepts in design. Here it is "Ground Theory," the name derived from coffee ground and research method, called, Grounded theory. The style delivers the same standard of a fantastic lace front, silky fiber, fine monofilament, along with the fulfillment of demanded design. Enjoy!

The 22-inch version of our famous Nitro 16. Nitro cold brews are cold brews infused with nitrogen. Nitrogen is a colorless, odorless gas with smaller bubbles than carbon dioxide. These tiny bubbles have a hard time dissolving, which gives the coffee a thick, heavy feel. Nitrogen can make a drink as strong as black coffee taste smooth and sweet (Google, 2019). Nitro 22 from Belle Tress is an excellent example of originality in design, fiber luxury, and craftsmanship technology. Stumptown Coffee Roasters believe that their skills, expertise, and craftsmanship is the difference between mediocre coffee and coffee that is like nothing you've ever tasted before. The same principle applies to distinguish the premium designer-quality wigs from the average wigs. Alexandria

An updated edge beach wave bob with an unexpected curl pattern. The name comes from Alexandria green tea from the famous TWG tea company, their description of the Alexandria tea fits the description of Belle Tress' new design, Alexandria. "A dreamy reminder of Arabian nights, this TWG Tea mélange of green teas is subtly blended with sweet & spicy mints, warm spices, and a scattering of flower petals which finishes with a melting note of anise. Warm and enveloping" (TWG website, 2022). A scattering deconstructed curl pattern is organized by blunt-cut ends, adding sweet and spicy edginess.

Amber Rock

Amber rock is sugar in the purest form. A natural sweetener made in Belgium from natural sugar beets. Amber rock sugar is great for adding a little sweetness without distorting the flavor profile of your tea. We all dream about trying crimped hair without making a permanent commitment to getting a perm. Some are lucky to be born with that hair. If you are not one of the lucky ones, you can achieve your dream with Amber Rock. It will add a natural sweetness to your hair wardrobe!

Citrus Mint

Another favorite tea! Soothe your soul with this lush green tea blended with spearmint, lemon verbena, and lemongrass. If you liked ROSE ELLA, you would love CITRUS MINT. It has a less-density, Half-Moon Lace Front, a modern curl pattern, and strategically cut layers. This look has a long beach wave representing the classic California girl attitude. Carefree, fun, and ready to hit the beach with soft, relaxed, S curl pattern curls.

Summer Peach

Summer Peach Iced Tea is one of the favorite things to make. It requires peach tea bags, hot and cold water, baking soda, and frozen or fresh peaches. For an amazingly taste Summer Peach Tea, it takes time, effort, and gathering of the ingredients. We've created Belle Tress Summer Peach with the same measures to perfect the design of medium-length, modern, edgy, yet soft barrel curls that frame the face beautifully. Rather than being cut flat across the forehead, arch bangs follow the natural curve of the face for a slightly rounded appearance. When your hairstyle provides a beautiful face-framing shape, it maximizes youthfulness and beauty. Face-framing haircuts and styles don't just make your hair look good; they put your best facial features on display like never before!

Timeless

One of the most popular teas from TWG tea company. Their description of the Timeless tea is as follows. A swirling eddy of savors, this classic black tea, blended with a passionate bouquet of hibiscus and bright flowers, turns back the hands of time, producing a refreshing cup with a lingering floral aftertaste. For those moments of eternal emotion (TWG website, 2022). A shoulder-length classic bob with a twist, it is for everyone regardless of age for comfort, and elegance, celebrating who you are. A special proprietary technique is used to produce a beautiful and manageable design without adding perma-tease and/or excessive hair. The lace front hairline allows you to wear your hair back and the partial lace mono top creates an illusion of a natural scalp. It is truly a timeless piece.

Twix is a caramel shortbread chocolate bar made by Mars, Inc., consisting of a biscuit applied with other confectionery toppings and coatings(Wikipedia, 2022). We all love the sweetness of Twix, as you will love Belle Tress Twix. It is a longer version of our Amber Rock made with the same famous and luxurious Belle Tress fiber and extended lace front along with a beautiful part lace mono. We all dream about trying crimped hair without making a permanent commitment to getting a perm. Some are lucky to be born with that hair. If you are not one of the lucky ones, you can achieve your dream with Twix. It will add a natural sweetness to your hair wardrobe!

At BelleTress, our team shares the same passion and pursuit to develop luxurious and original design profiles using the latest technology. Balance

According to the coffee glossary, "Balance" is a tasting term applied to coffees for which no single characteristic overwhelms others, but that display sufficient complexity to be interesting. With the innovative center-part, this gem creates the natural balance just by having the equal amount of hair on both sides. BelleTress original, ultimate in natural full lace front and lace part in the middle, you will always find the right balance.

Destiny

Another one of the most popular teas from TWG tea company. Their description of Destiny Tea is as follows. The days come and go. The sun rises and sets. The gentle repetition of the seasons gives the illusion that nothing ever changes. Yet destiny can overturn the world, bringing new hope, new dreams, and new ideas. Destiny opens horizons, clears the air, and brings joy to the spirit. Celebrate this journey of discovery with this effervescent green tea embellished with passion fruit and a bouquet of roses, marigolds, and jasmine. A tea of hope (TWG website, 2022). Belle Tress' Destiny is one of our favorites as a designer because the style reflects our brand identity. A classic with a twist, to bring out the edginess while proudly identifying it as a Belle Tress original. It is a timeless bob with deconstructed layers and a wispy bang, to bring out the latest trends in design. The lace front provides you with an option to brush away the bangs and the extended lace front gives you the freedom of wearing the hair behind the ears. Made with the luxurious BT silky fiber.

Honeybush

Honeybush is a plant with brilliant yellow flowers native to South Africa, specifically the Western Cape. The plant's leaves, not flowers, make a popular and healthy herbal tea which is like rooibos tea but slightly sweeter (Freshcap, 2022). Like the most honest friend in your inner circle, classic bob with bangs gets straight to the point. If you've been uninspired and looking to switch it up from your typical long layered cut, it might be time to give a slightly angled bob with bangs a second look. We were inspired to create Honeybush from all the comments on YouTube asking for our Alpha Blend with a bottleneck bang. The wispy bang and extended Half-Moon lace front allow you to wear the hair behind the ear with no concern of showing the hairline!

London HighTea

The tradition is still quintessentially British. Many Brits still make time to sit and enjoy the etiquette and civility of this, the quaintest of English dining customs. We miss the slower pace of life and wish we had the time and the mindset to enjoy what life offers. The demands for wispy, slightly longer, precut bangs are high! Wispy, Precut bang with the option of half-moon lace front to wear the hair behind the ear. Bangs may have once been a rash decision born out of lockdown-era boredom, but they have since become a significant player in haircuts. These asymmetrical bangs make a striking visual impact, but they also create the illusion of a softer face. Notice the updated, lightly blunt, and deconstructed modern beach wave.

Tea Rose

Modern, edgy, and texturized wavy curls and amazingly silky, soft, and luxurious fiber is the essence of Tea Rose. A piece-y bangs with layers that can help to soften your features. The popularity of Dalgona 16 inspired us to create Tea Rose. It offers the luxurious extended Half-Moon Lace front to give you the freedom to wear the hair behind the ears and sweep the bangs to the side. Rose tea is made from the petals and buds of the rose bush. It is one of our favorite teas because of its health benefits and fragrance (Healthline, 2022).
