

Aerlinn Bears Esther Peppet

Aerlinn Bears has been part of my daily routine since 1994. I sell through Etsy since 2010 before that on eBay for six years.

Initially I relied on Fairs and mail

order through teddy bear magazines. Hard to summon into mind those days before the internet. Surely that was a close friend not me.

I still love what I do, the completion of each character fills me with gratification and a feeling of contentment. If that feeling of less than pleasing creeps up I give extreme to simple make overs of a wardrobe change.

With all the materials in fabulous colours & styles, eye sizes and styles, nose variations, facial shading and sculpting, different looks from different joint placements, stuffing for firm or slouched look, to how you style the finished bear; let alone your own pattern that often changes a little from one bear to the next until you are completely happy—you're assured to come out with a unique character. The possibilities are endless.

Working from my home in temperate Hobart, Tasmania, all bears are designed and created by me with my trusty laptop and my British Shorthair

cat 'Blue' for company. I will keep making bears as long as my health remains even if they are only for myself.
