App controlled Surfwheel LED lights

250W rated power brushless motor

Android, iOS App support

SURFWHEEL SU

Exploring becomes thrilling when you are surfing the land on a Surfwheel SU. The light weight design makes it easy to maneuver around street corners. The LED lights shine the city at night. Just by stepping out your front door and on to your Surfwheel, you will feel like you are surfing a wave or boarding down the side of a mountain.
