Specifications

🔇 Disinfection time: 10 secondes

✓ Tension: 5V/1A✓ Power: 7W

Product G.W.: 200 g

Charge/Interface type: Micro USBNumber of LED UVC light: 20

Battery capacity: 2000 mAh
Charging time: about 2.5 hours

✓ UVC LED wave lenght: 260–280 nm✓ Product size: 257x42x40mm close,

415mm lenght when open

⊗ Button: On/Off

Automatic stop after 3 minutes without movement

✓ Battery life: 15 days

Lasts approximatively 10 000 hours

Certified by National and International Organisations

Food and Drug Administration (USA) Federal Communications Commission (USA) Conformité Européenne Restriction of Hazardous Substances Société Générale de Surveillance
