SECTION 4: First aid measures

4.1 Description of first aid measures

If you do not feel well after exposure or if the problem persists, seek medical attention. If unconscious, place in recovery position and get medical attention. Do not give anything by mouth when unconscious.

Inhalation:	Remove victim to fresh air, keep calm and warm. If the problem persists, see a doctor.
Skin contact:	In case of skin contact, wash immediately with plenty of water. Wash contaminated clothing before reuse. Seek medical attention if irritation persists.
Eye contact:	Immediately flush eyes with plenty of water for at least 15 minutes. Do not rinse with a strong stream of water - risk of corneal injury. Get medical attention if problems occur.
Ingestion:	Do not induce vomiting. Rinse mouth with water and drink 1-2 dl of water. Call a doctor immediately.

4.2 Most important symptoms and effects, both acute and delayed

Information not available.

4.3 Indication of any immediate medical attention and special treatment needed

Special funds are not intended. Treatment is symptomatic.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media:	CO ₂ , extinguishing powder, extinguishing foam, sand

5.2 Special hazards arising from the substance or mixture

The mixture is not classified as flammable. In case of fire, carbon dioxide, carbon monoxide and other hazardous gases may be formed.

5.3 Advice for firefighters

Use suitable respiratory protective device. Collect contaminated fire fighting water separately. It must not enter the sewage system.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Restrict unauthorized access to the accident area until the accident is rectified. Ensure adequate ventilation. Avoid contact with skin and eyes. Follow the rules and regulations of work safety when working with chemical products. Use personal protective equipment. Do not breathe vapors or aerosols.

6.2 Environmental precautions

Do not allow to enter sewers / surface or ground water. If the product leaks into water or sewage system inform appropriate authorities.

6.3 Methods and material for containment and cleaning up

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders). Keep in a suitable container and dispose of in accordance with local regulations.
