according to Regulation No. 1907/2006 of the European Parliament and of the Council, as subsequently amended

HUMDAKIN – INTIMATE WASH

Date of issue:

09. 08. 2022

Version: 1.0

This product is a cosmetic product which, in its finished state, is intended for the end user and is therefore not subject to the obligations under Regulation 1272/2008/EC - CLP (Article 1) and Title IV of Regulation 1907/2006/EC - REACH (Article 2).

This document describe facts of product only and may not correspond to the abovementioned legislative norms, albeit format is used for the safety data sheet.

SECTION 1: Identification of the substance/mixture and of the company/ undertaking

1.1. Product identifier

Product Name

HUMDAKIN – INTIMATE WASH

UFI code

Not relevant.

Product code

CH-626-2

Mixture description

Water solution.

1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses

Cosmetic product.

Uses advised against

Not known. It is recommended to use it only for the intended use. Other uses may expose users to unpredictable risks.

1.3. Details of the supplier of the safety data sheet

HUMDAKIN Estrupvej 1 DK-8380 TRIGE Denmark telephone: +45 70 70 75 70 e-mail address for a competent person responsible for the SDS: info@humdakin.com

1.4. Emergency telephone number

112 (General emergency phone).

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

The mixture is classified as hazardous according to regulation 1272/2008/EC.

Classification according to 1272/2008/EC

according to Regulation No. 1907/2006 of the European Parliament and of the Council, as subsequently amended

HUMDAKIN – INTIMATE WASH

Eye Dam. 1; H318

Full text of classifications and H-phrases: see section 16.

The most important adverse physical, human health and environmental effects

Causes serious eye damage.

2.2. Label elements

Hazard pictograms

Signal word

Danger.

Substances of the mixture to be placed on the label

Contains 1-Propanaminium, 3-amino-N-(carboxymethyl)-N,N-dimethyl-, N-(C8-18(even numbered) and C18 unsaturated acyl) derivs., hydroxides, inner salts, D-Glucopyranose, oligomeric, C10-16 (even numbered) alkyl glycosides.

Hazard statements

H318 Causes serious eye damage.

Precautionary statements

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310 Immediately call a POISON CENTER/doctor.

P501 Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation.

Supplemental hazard information

Mandatory additional information is not required according to CLP regulation.

2.3. Other hazards

Mixture does not contain substance(s) meeting the criteria for persistent, bioaccumulative and toxic (PBT) or very persistent and very bioaccumulative (vPvB) in accordance with Annex XIII of REACH regulation. The mixture and its substances are not mentioned on the Candidate list for possible inclusion in Annex XIV of REACH at the date of the revision of the safety data sheet (established in accordance with Article 59(1) of REACH regulation. Mixture does not contain the substance(s) identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

3.2.1. Substances of a mixture classified as hazardous

according to Regulation No. 1907/2006 of the European Parliament and of the Council, as subsequently amended

HUMDAKIN – INTIMATE WASH

Identification of substance	ContentClassification accordingwt. %to 1272/2008/EC

Skin Irrit. 2; H315	C > 30 %

Full text of classifications and H-phrases: see section 16.

SECTION 4: First aid measures

In all cases keep the victim at physical and mental rest and warm. In case of doubt or if symptoms persist, seek medical attention. Never give anything by mouth if victim is rapidly losing consciousness, unconscious or convulsing. Protect yourself during rescue work.

4.1. Description of first aid measures

Inhalation

Interrupt the exposure, move the person to the fresh air. In case of persistent nausea, seek medical advice.

Skin contact

This product is a cosmetic product.

Eye contact

Rinse with a gentle stream of water for at least 15 minutes. Keep your eyelids wide open with your thumb and forefinger. If the affected person is wearing contact lenses, remove them before rinsing eyes if it is easy. Seek medical advice.

Ingestion

Rinse your mouth and then drink plenty of water. Do not induce vomiting. Do not give milk or alcoholic beverages. Never give anything by mouth to an unconscious person. Seek medical advice.

4.2. Most important symptoms and effects, both acute and delayed

Are not known.

according to Regulation No. 1907/2006 of the European Parliament and of the Council, as subsequently amended

HUMDAKIN – INTIMATE WASH

4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically and supportively.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media

The product is non-flammable. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media

Solid streams of water may be ineffective.

5.2. Special hazards arising from the substance or mixture

In case of fire extinguishing prevent leakage of water and rest of product into drains. Collect them separately and dispose of safely in accordance with current legislation and applicable local regulations.

In case of fires, hazardous combustion gases are formed: carbon oxides, nitrogen oxides and products of incomplete combustion.

5.3. Advice for firefighters

Stop further leakage of product if possible. Spilled product, which does not burn, cover with sand or foam. Move containers and barrels away from the fire to a safe place, if possible. Cool all affected containers down with flooding quantities of water. If the fire can't be extinguished - evacuate the premises.

In case of fire, wear suitable respiratory protective equipment and fire-fighting suit.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Avoid contact with eyes, use suitable protective equipment and clothing, see Section 8. Ensure adequate ventilation. Avoid formation of vapour and aerosol. At the point of leakage, prevent the movement of unauthorized persons.

6.2. Environmental precautions

Prevent further leakage or spillage if safe to do so. If this cannot be avoided, inform the competent authorities (police and firefighters) immediately.

6.3. Methods and material for containment and cleaning up

According to the amount of spilled liquid, drain away the substance (large spillage) or in case of small spillage, absorb it with suitable absorbent (vermiculite, dry sand), put into labelled closed containers and dispose of them accordingly to Section 13. Flush residues with water and collect it for waste disposal. Do not use solvents or dispersants unless instructed by an expert or government authority.

If container is damaged, remove the content to the new undamaged container and label it properly again.

6.4. Reference to other sections

Refer also to the provisions of sections 7, 8 and 13 of this safety data sheet.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

according to Regulation No. 1907/2006 of the European Parliament and of the Council, as subsequently amended

HUMDAKIN – INTIMATE WASH

Avoid contact with eyes. Personal protection see. Section 8. Ensure good ventilation to prevent formation of vapour and aerosol.

Smoking, eating and drinking should be prohibited at the place of use. Keep safety regulations for handling chemicals. Take off contaminated clothing and protective equipment before entering the dining area. Do not use dirty clothing. After work wash yourself carefully with warm water and soap, take a shower. Use protective cream.

7.2. Conditions for safe storage, including any incompatibilities

Store in original, tightly closed containers, in a dry, cool and well-ventilated place at room temperature. Do not store together with incompatible materials (see subsection 10.5), food, drink and feed.

Shelf Life: 31 months.

PAO (Period After Opening): 6 months.

7.3. Specific end use(s)

See subsection 1.2.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

8.1.1. Exposure limit value

Not determined.

8.1.2. Biological limit values

Not determined.

_ . . _ .

8.1.3. DNEL and PNEC values

1-Propanaminium, 3-amino-N-(carboxymethyl)-N,N-dimethyl-, N-(C8-18(even numbered) and C18 unsaturated acyl) derivs., hydroxides, inner salts

8.2. Exposure controls

8.2.1. Appropriate engineering controls

Use only in well-ventilated areas.

Observe usual safety precautions for working with chemicals. The degree of effectiveness of personal protective equipment depends on temperature and ventilation levels.

8.2.2. Individual protection measures, such as personal protective equipment

Do not eat, drink or smoke. After work, wash thoroughly with warm water and soap and take a shower. Use protective cream. Do not soiled protective equipment to wash, do not use solvents.

Eye/face protection

Wear safety goggles or face shield when manufacturing and handling the product. They are not necessary when used by the consumer.

Skin protection - hand protection

Wear protective gloves when manufacturing and handling the product. They are not necessary when used by the consumer.

The selection of the glove material on consideration of the breakthrough time, permeability, degradation and next relevant factors; other chemicals that may come into contact, physical requirements (cut and puncture protection, dexterity, thermal protection), possible body reactions to the glove material and the glove supplier's instructions and specifications. In case of repeated use of gloves, clean and keep them in a well-ventilated place before taking off.

Skin protection - other

In normal use is not necessary, in case of prolonged contact with the product, wear protective work clothes and shoes.

Respiratory protection

Not necessary in case of compliance concentration limits (if they were exceeded, use a respirator against organic vapour). In the event of an accident or a fire use self-contained breathing apparatus.

Thermal hazards

In normal use is not necessary protective equipment to be worn for materials that represent a thermal hazard.

according to Regulation No. 1907/2006 of the European Parliament and of the Council, as subsequently amended

HUMDAKIN - INTIMATE WASH

8.2.3. Environmental exposure controls

Uncontrolled release of the mixture into environment is to be avoided. Keep the emission limits according to national legislation.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Mixture

Physical state	Homogeneous liquid (surfactant/tenside)	
Colour	Yellowish.	
Odour	Not determined (without perfume).	
Melting point/freezing point	Not determined.	
Boiling point or initial boiling point and boiling range	Not determined.	
Flammability	The mixture is not classified as flammable liquid.	
Lower explosion limit	Not determined.	
Upper explosion limit	Not determined.	
Flash point	Not determined.	
Auto-ignition temperature	Not determined.	
Decomposition temperature	Not determined, the mixture does not contain self reactive substances or organic peroxides or other substances which may decompose.	
pН	4.0 - 4.5	
Kinematic viscosity	Not determined, the mixture does not contain substance classified as aspiration toxic, or the su of the concentrations of substances classified aspiration toxic is less than 10 wt. %.	
Solubility	Soluble in water.	
Partition coefficient n-octanol/water (log value)	Does not apply to mixture.	
Vapour pressure	Not determined.	
Density and/or relative density	Not determined.	
Relative vapour density	Not determined.	
Particle characteristics	Does not apply to paste.	
I-Propanaminium, 3-amino-N-(carboxymethyl)-N,N-di numbered) and C18 unsaturated acyl) derivs., hydrox		

Physical state	Solid.
Colour	Not determined.
Odour	Not determined.
Melting point/freezing point	≥ 60 - ≤ 260 °C (decomposition, OECD 102).
Boiling point or initial boiling point and boiling range	Not determined, substance decomposes.

according to Regulation No. 1907/2006 of the European Parliament and of the Council, as subsequently amended

Flammability Non-flammable solid (EU method A.10). Lower explosion limit Does not apply to solid. Upper explosion limit Does not apply to solid. Auto-ignition temperature Does not apply to solid. Decomposition temperature Not determined. pH Not determined. Kinematic viscosity Does not apply to solid. Solubility ≤ 250 mg/l (20 °C). 9.2. Other information	Particle characteristics	Not determined.
	9.2. Other information	

according to Regulation No. 1907/2006 of the European Parliament and of the Council, as subsequently amended

9.2.1. Information with regard to physical hazard classes				
Mixture				
The mixture does not contain substances classified as hazardous to the physical classes, or the concentration of substance(s) is lower than the limit for inclusion in Section 3.				
1-Propanaminium, 3-amino-N-(carboxymethyl)-N,N-dimethyl-, N-(C8-18(even numbered) and C18 unsaturated acyl) derivs., hydroxides, inner salts				
Explosives				
Data for the substance are not available. The substance does not contain chemical groups associated with explosive properties.				
Flammable gases				
It is not gas.				
Aerosols				
It is not aerosol.				
Oxidising gases				
It is not gas.				
Gases under pressure				
It is not gas.				
Flammable liquids				
It is not liquid.				
Flammable solids				
The substance is not classified as flammable solid, burning time = 510 s (EU method A.10).				
Self-reactive substances and mixtures				
Data for the substance are not available. The substance does not contain chemical groups associated with explosive or self-reactive properties.				
Pyrophoric liquids				
It is not liquid.				
Pyrophoric solids				
Data for the substance are not available. The substance is stable in air, there is no spontaneous ignition.				
Self-heating substances and mixtures				
Data for the substance are not available. The substance is not classified as self-heating.				
Substances and mixtures, which emit flammable gases in contact with water				
Data for the substance are not available. The chemical structure of the substance does not contain metals or metalloids.				
Oxidising liquids				
It is not liquid.				
Oxidizing solids				

according to Regulation No. 1907/2006 of the European Parliament and of the Council, as subsequently amended

Data for the substance are not available. It is an organic substance that does not contain oxygen, fluorine or chlorine, or th bounded only to carbon or hydrogen.	nese elements are chemically
Organic peroxides	
Data for the substance are not available. The substance does not contain a bivalent group -O-O- with at least one organ	ic radical.
Corrosive to metals	
Data for the substance are not available. The substance is not classified as corrosive to metal.	
Desensitised explosives	
Data for the substance are not available. The substance does not contain chemical groups associated with explosive pro	operties.
D-Glucopyranose, oligomeric, C10-16 (even numbered) alkyl glycosides	CAS: 110615-47-9
Explosives	
Data for the substance are not available. The substance does not contain chemical groups associated with explosive pro	operties.
Flammable gases	
It is not gas.	
Aerosols	
It is not aerosol.	
Oxidising gases	
It is not gas.	
Gases under pressure	
It is not gas.	
Flammable liquids	
It is not liquid.	
Flammable solids	
The substance is not classified as flammable solid (EU method A.10).	
Self-reactive substances and mixtures	
Data for the substance are not available. The substance does not contain chemical groups associated with explosive or	self-reactive properties.
Pyrophoric liquids	
It is not liquid.	
Pyrophoric solids	
Data for the substance are not available. The substance is stable in air, there is no spontaneous ignition.	
Self-heating substances and mixtures	
Data for the substance are not available. The substance is not classified as self-heating.	

according to Regulation No. 1907/2006 of the European Parliament and of the Council, as subsequently amended

HUMDAKIN – INTIMATE WASH

Substances and mixtures, which emit flammable g	ases in contact with water	
Data for the substance are not available.		
The chemical structure of the substance does not contain metals or metalloids.		
The substance is soluble in water and forms a stable n	nixture with it.	
Oxidising liquids		
It is not liquid.		
Oxidizing solids		
Data for the substance are not available. It is an organic substance that does not contain oxygen, bounded only to carbon or hydrogen.	fluorine or chlorine, or these elements are chemically	
Organic peroxides		
Data for the substance are not available. The substance does not contain a bivalent group -O-O	- with at least one organic radical.	
Corrosive to metals		
Data for the substance are not available. The substance is not classified as corrosive to metal.		
Desensitised explosives		
Data for the substance are not available. The substance does not contain chemical groups asso	ciated with explosive properties.	
9.2.2. Other safety characteristics		
Mechanical sensitivity	Not determined, it is not an explosive substance.	
Self-accelerating polymerisation temperature	Not determined, it is not a polymerising substance.	
Formation of explosible dust/air mixtures	Not determined, it is not a dust.	
Acid/alkaline reserve	Not determined, pH is in the range 4 - 10.	
Evaporation rate	Not determined.	
Miscibility	Not determined.	
Conductivity	Not determined.	
Corrosiveness	Not determined.	
Gas group	Not determined, it is not gas.	
Redox potential	Not determined.	
Radical formation potential	Not determined.	
Photocatalytic properties	Not determined.	

SECTION 10: Stability and reactivity

10.1. Reactivity

The mixture is stable under normal conditions of use. There aren't any hazardous reaction.

10.2. Chemical stability

Stable under recommended storage conditions.

10.3. Possibility of hazardous reactions

according to Regulation No. 1907/2006 of the European Parliament and of the Council, as subsequently amended

HUMDAKIN – INTIMATE WASH

Hazardous reactions aren't known under normal conditions of use.

10.4. Conditions to avoid

Protect from temperatures below 0 °C.

10.5. Incompatible materials

Strong oxidizing agents.

10.6. Hazardous decomposition products

They do not form under normal use. Burning releases carbon oxides, nitrogen oxides and products of incomplete combustion.

SECTION 11: Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Mixture

Acute toxicity The mixture is not classified as toxic for all routes of exposure. Oral Data for the mixture are not available. The mixture does not contain substances classified as an acute toxicity by oral route of exposure or the concentration of substance(s) is lower than the limit for inclusion in Section 3. Dermal Data for the mixture are not available. The mixture does not contain substances classified as an acute toxicity by dermal route of exposure or the concentration of substance(s) is lower than the limit for inclusion in Section 3. Inhalation Data for the mixture are not available. The mixture does not contain substances classified as an acute toxicity by inhalation route of exposure or the concentration of substance(s) is lower than the limit for inclusion in Section 3.

Skin corrosion/irritation

Data for the mixture are not available.

The mixture is not classified as skin irritant based on the general/specific concentration limits of substance(s).

Serious eye damage/irritation

Data for the mixture are not available.

The mixture is classified as causes serious eye damage based on the general/specific concentration limits of substance(s).

Respiratory or skin sensitisation

Data for the mixture are not available.

The mixture does not contain substances classified as sensitizing or the concentration of substance(s) is lower than the limit for inclusion in Section 3.

Germ cell mutagenicity

Data for the mixture are not available.

The mixture does not contain substances classified as mutagenicity or the concentration of substance(s) is lower than the limit for inclusion in Section 3.

Carcinogenicity

according to Regulation No. 1907/2006 of the European Parliament and of the Council, as subsequently amended

HUMDAKIN – INTIMATE WASH

Data for the mixture are not available.

The mixture does not contain substances classified as carcinogenicity or the concentration of substance(s) is lower than the limit for inclusion in Section 3.

Reproductive toxicity

Data for the mixture are not available.

The mixture does not contain substances classified as toxic for reproduction or the concentration of substance(s) is lower than the limit for inclusion in Section 3.

STOT – single exposure

Data for the mixture are not available.

The mixture does not contain substances classified as toxic for specific target organs in a single exposure or the concentration of substance(s) is lower than the limit for inclusion in Section 3.

STOT – repeated exposure

Data for the mixture are not available.

The mixture does not contain substances classified as toxic for specific target organs in a repeated exposure or the concentration of substance(s) is lower than the limit for inclusion in Section 3.

Aspiration hazard

Data for the mixture are not available.

The mixture does not contain substances classified as aspiration hazard or the concentration of substance(s) is lower than the limit for inclusion in Section 3.

Other information

See section 2 and 4.

	3-amino-N-(carboxymethyl)-N,N-dimethyl-, N-(C8-18(even 8 unsaturated acyl) derivs., hydroxides, inner salts	ES: 931-333-8
Acute toxicity		
Oral	Based on available data, the classification criteria are not met. $LD_{50} = 2 \ 335 \ mg/kg$ (rat, OECD 401). ATE = 500 mg/kg (for calculation by additive formula).	
Dermal	Based on available data, the classification criteria are not met. $LD_{50} > 620 \text{ mg/kg}$ (rabbit, no death is observed, OECD 402).	
Inhalation	Data for the substance are not available.	

Skin corrosion/irritation

Based on available data, the classification criteria are not met.

Mean erythema score = 0.33, 1.67, 0.33 (fully reversible after 72 hours) and edema = 0.33, 0.33, 0 (fully reversible after 48 hours) (rabbit, 72 hrs. OECD 404).

Serious eye damage/irritation

The substance is classified as seriously damaging to the eyes.

Mean score of corneal opacity score = 0 (delayed occurrence of corneal opacity score 1 or 2 in 2/3 animals, not fully reversible after 21 days), iritis score= 1 (fully reversible after 10 days), conjunctivae score = 2.67, 2, 2.67 (not fully reversible after 10 days), chemosis score = 3, 2.67, 3, 2.67 (not fully reversible after 21 days) (rabbit, 72 h, OECD 405).

Respiratory or skin sensitisation

according to Regulation No. 1907/2006 of the European Parliament and of the Council, as subsequently amended

HUMDAKIN – INTIMATE WASH

	able data, the classification criteria are not met. ising (guinea pig, OECD 406).
Germ cell mut	tagenicity
	able data, the classification criteria are not met. /lethod B.13/14, EU Method B.17).
Carcinogenici	ity
Data for the su	bstance are not available.
Reproductive	toxicity
Data for the su	bstance are not available.
STOT – single	exposure
Data for the su	bstance are not available.
STOT – repear	ted exposure
NOEL = 300 m LOEL = 150 mg	able data, the classification criteria are not met. g/kg/day (systemic effects, rat, oral, 90 days, OECD 408). g/kg/day (local effects, rat, oral, 90 days, OECD 408). /kg/day (local effects, rat, oral, 90 days, OECD 408).
Aspiration ha	zard
The substance or less at 40 °C	is not a hydrocarbon or a chlorinated hydrocarbon with a kinematic viscosity of 20.5 mm ² /s
D-Glucopyranose	e, oligomeric, C10-16 (even numbered) alkyl glycosides CAS: 110615-47-9
Acute toxicity	
Oral	Based on available data, the classification criteria are not met. LD ₅₀ > 5 000 mg/kg (rat, OECD 401).
Dermal	Based on available data, the classification criteria are not met. LD ₅₀ > 2 000 mg/kg (rabbit, OECD 402).
Inhalation	Data for the substance are not available.
Skin corrosio	n/irritation
The substance	is classified as skin irritant.
Mean erythema (rabbit, 72 hrs.,	a score = 2.9 (fully reversible after 17 days) and oedema = 2.1 (fully reversible after 10 days) , OECD 404).
Serious eye d	amage/irritation
Mean score of days), conjunc	is classified as seriously damaging to the eyes. corneal opacity = 0.5 (not fully reversible after 21 days), iritis = 0.3 (fully reversible after 14 tival redness = 2.1 (not fully reversible after 21 days), conjunctival oedema = 1 (not fully 21 days) (rabbit, 72 h, OECD 405).
	r skin sensitisation
Based on avail	able data, the classification criteria are not met. ising (guinea pig, OECD 406).

Not skin sensitising (guinea pig, OECD 406).

Germ cell mutagenicity

according to Regulation No. 1907/2006 of the European Parliament and of the Council, as subsequently amended

HUMDAKIN – INTIMATE WASH

Based on available data, the classification criteria are not met.

Negative (OECD 471, OECD 473, OECD 476).

Carcinogenicity

Data for the substance are not available.

Reproductive toxicity

Based on available data, the classification criteria are not met.

NOAEL = 1 000 mg/kg/day (reproductive toxicity, oral, rat, generation P0, OECD 421).

STOT – single exposure

Data for the substance are not available.

STOT – repeated exposure

Based on available data, the classification criteria are not met.

NOAEL = 1000 mg/kg/day (systemic and cumulative effect, rat, oral, 90 d, EU Method B.26).

Aspiration hazard

The substance is not a hydrocarbon or a chlorinated hydrocarbon with a kinematic viscosity of 20.5 mm²/s or less at 40 $^{\circ}$ C.

11.2. Information on other hazards

Mixture does not contain substance(s) meets meeting the criteria for persistent, bioaccumulative and toxic (PBT) or very persistent and very bioaccumulative (vPvB) in accordance with Annex XIII of REACH regulation. The mixture and its substances are not mentioned on the Candidate list for possible inclusion in Annex XIV of REACH at the date of the revision of the safety data sheet and given in the list (established in accordance with Article 59(1) for having endocrine disrupting properties of REACH regulation.

Mixture does not contain the substance(s) identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605. There is no other relevant information on adverse health effects that is not required according to the classification criteria set out in CLP Regulation.

SECTION 12: Ecological information

12.1. Toxicity

Mixture

Data for the mixture are not available.

Acute aquatic toxicity

The mixture does not contain substances classified as acute aquatic toxicity or the concentration of substance(s) is lower than the limit for inclusion in Section 3.

Chronic aquatic toxicity

The mixture is not classified as chronic aquatic toxicity based on calculation according to the summation method.

category	1	2	3	4
Σ	0	0	< 6.0	< 6.0

1-Propanaminium, 3-amino-N-(carboxymethyl)-N,N-dimethyl-, N-(C8-18(even ES: 931-333-8 numbered) and C18 unsaturated acyl) derivs., hydroxides, inner salts

The substance is classified as Aquatic Chronic 3; H412.

Fish

according to Regulation No. 1907/2006 of the European Parliament and of the Council, as subsequently amended

LC₅₀, 96 hrs., Pimephales promelas: 1.11 mg/l (mortality, OECD 203). NOEC, 28 d., Oncorhynchus mykiss: ca. 0.16 mg/l (mortality, OECD 210).	
Crustaceans

according to Regulation No. 1907/2006 of the European Parliament and of the Council, as subsequently amended

HUMDAKIN – INTIMATE WASH

BCF = 3 I/kg (C8 derivatives, (Q)SAR method).

BCF = 71 l/kg (C10 - C18 and C18 unsaturated derivatives, (Q)SAR method).

log Pow = 4.44 (20 °C, pH = 3 - 8, weighted mean value, (Q)SAR method).

D-Glucopyranose, oligomeric, C10-16 (even numbered) alkyl glycosides

CAS: 110615-47-9

log Pow \leq -0.07 (20 °C, calculation).

12.4. Mobility in soil

Mixture

Data for the mixture are not available.

1-Propanaminium, 3-amino-N-(carboxymethyl)-N,N-dimethyl-, N-(C8-18(even numbered) and C18 unsaturated acyl) derivs., hydroxides, inner salts

log Koc = 2.5 (C12 derivate, 20 °C, OECD 121).

D-Glucopyranose, oligomeric, C10-16 (even numbered) alkyl glycosides

CAS: 110615-47-9

ES: 931-333-8

log Koc = 1.7 (25 °C).

12.5. Results of PBT and vPvB assessment

Mixture does not contain substance(s) meeting the criteria for persistent, bioaccumulative and toxic (PBT) or very persistent and very bioaccumulative (vPvB) in accordance with Annex XIII of REACH Regulation. The mixture and its substances are not mentioned on the Candidate list for possible inclusion in Annex XIV of REACH at the date of the revision of the safety data sheet (established in accordance with Article 59(1) of REACH Regulation.

12.6. Endocrine disrupting properties

The mixture and its substances are not mentioned on the Candidate list for possible inclusion in Annex XIV of REACH at the date of the revision of the safety data sheet (established in accordance with Article 59(1) of REACH Regulation. Mixture does not contain the substance(s) identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

12.7. Other adverse effects

Data are not available.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Disposal methods of the substance or mixture and the contaminated packaging

Dispose according to the applicable European and local regulations (eg. in a hazardous waste incinerator). **Do not empty unused product into drainage systems.** Do not contaminate ponds or ditches with the product or used container. Hand over the residual amounts and solutions to a licensed disposal company. Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation.

Possible waste code

16 03 05* - organic wastes containing dangerous substances (mixture), 15 01 10* - packaging containing residues of or contaminated by hazardous substances (contaminated packaging).

Physical/chemical properties that may affect waste treatment options

Not known.

Special precautions recommended for waste management

according to Regulation No. 1907/2006 of the European Parliament and of the Council, as subsequently amended

HUMDAKIN – INTIMATE WASH

Not known.

Waste legislation

Directive 2008/98/EC on waste and repealing certain Directives, as amended.

SECTION 14: Transport information

This product is not classified as a dangerous for transportation (ADR/RID, IMDG, ICAO/IATA).

14.1. UN number or ID number

Not given.

14.2. UN proper shipping name

Not given.

14.3. Transport hazard class(es)

Not given.

14.4. Packing group

Not given.

14.5. Environmental hazards

It is not dangerous for the environment during transport.

14.6. Special precautions for user

Not given.

14.7. Maritime transport in bulk according to IMO instruments

Not available.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Regulation No. 1907/2006/EC, concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals, as amended (REACH)

Regulation No. 1272/2008/EC, on Classification, Labelling and Packaging of substances and mixtures, as amended (CLP)

15.2. Chemical safety assessment

Has not been carried out for mixture.

SECTION 16: Other information

Reason for the revision of the safety data sheet

First edition.

Key or legend to abbreviations and acronyms

Aquatic Chronic 3	Chronic aquatic hazard, cat. 3
-------------------	--------------------------------

Eye Dam. 1 Serious eye damage, cat. 1

Eye Irrit. 2 Eye irritation, cat. 2

Skin Irrit. 2 Skin irritation, cat. 2

according to Regulation No. 1907/2006 of the European Parliament and of the Council, as subsequently amended
