PRODUCT TYPE

We have 10 product types. Your product will fall under one of these categories and all fees relating to that type will apply to that product. It's as simple as that!

TITLE	LL1	LL2	XXS	XS	S	M	L	XL	XXL	XXXL
WEIGHT	No more than 400g	No more than 700g	No more than 500g	No more than 1KG	No more than 2KG	No more than 5KG	No more than 10Kg	No more than 15KG	No more than 20KG	No more than 25kg

Please account 10% for the packaging weight when calculating the weight of your product!

*The heavier the product, the heavier the packaging will be.

How do I work out a Cubic Meter (m³)?

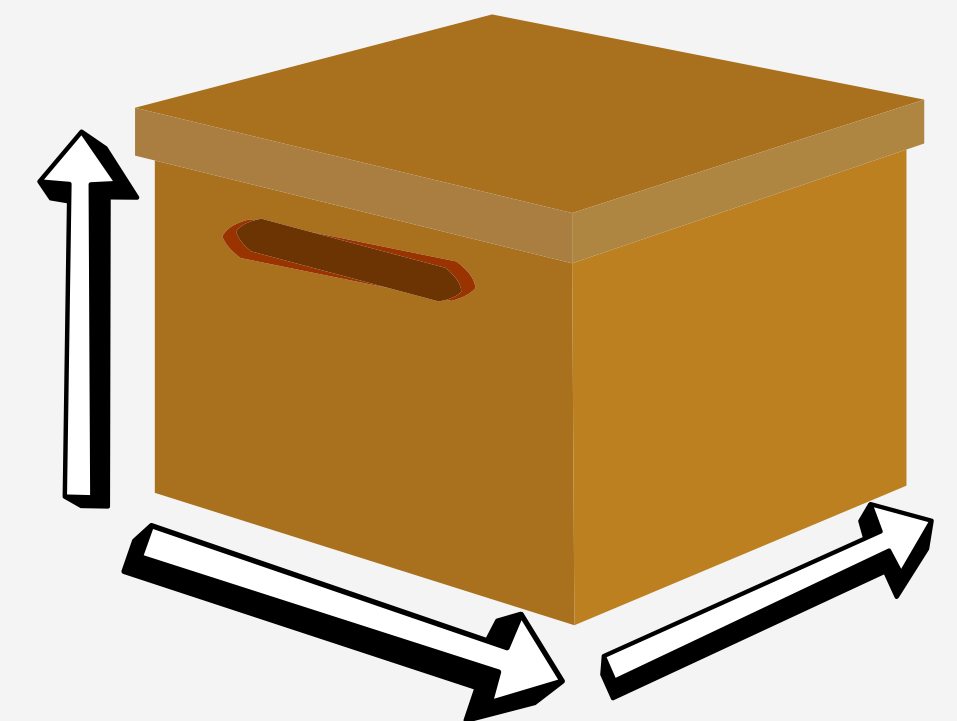

Length (meters) x Width (meters) x Height (meters) = cubic meters (m³)

Or (if in CMs)

Length (cm) x Width (cm) x Height (cm) / 1,000,000 = cubic meters (m³)

Here's a link to help you calculate things much faster:

https://www.ginifab.com/feeds/cbm/cubic_meter_calculator.html

Examples:

Small E-cigarette kit:

Dimension: 10cm x 6cm x 2.5cm

Weight: 145g + 15g packaging

Therefore it would fall under - **XXS**

Large Computer CPU:

Dimension: 43cm x 35cm x 18cm

Weight: 9kg + 0.900g Packaging

Cubic Meter: 0.027

Therefore it would fall under - **L**

If you have products that don't fit any of the product types above, then please contact us for a quote as we specialise in giving bespoke pricing for any product.

FEE	1.00	1.50	1.20	1.50	2.00	2.50	3.25	4.00	5.00	6.00

FRAGILE CHARGE

Fragile charge applies for fragile products that need extra care and packaging.

FEE	0.40	0.50	0.40	0.50	0.75	1.25	2.00	N/A	N/A	N/A

Fragile items bigger than “L” type won’t be accepted. This also applies to certain abnormal shaped products.

Please note - Internal components can’t be wrapped individually (for example a box with multiple fragile products inside), so if a product has several components then a custom quote has to be given
In which case please contact us.

Some Large Letter fragile products can’t be accepted as Large Letters, and they will need to be assigned to another product type. This will be decided by the fulfilment manager on duty. Contact us for more info.

SHIPPING INSURANCE (OPTIONAL)

Although we take full responsibility of all the products that are stored in our warehouse, we won’t be responsible for courier damages or losses.

All of our packaging is done in a professional manner with care, so damages to the product are very unlikely in transit. However, shipping insurance is useful when items do get damaged or lost.

We charge £1 per value of £100. So if you have a product which is worth £200 then the insurance amount will be £2. The minimum insurance charge will be £1, so even if you have a product worth £20, the insurance will be £1.

Please ask for our terms and conditions for more details.

Insurance is optional and you could only choose for products which you want insurance for.
