FULL LINE CATALOG | 2022

MAKING THINGS BETTER

From our original roots in the radical design of Olympic class biathlon racing rifles to our current projects, Eberlestock has shown the world how much performance should be expected of outdoor gear. We have always been a pioneer and a leader, not a follower. Here you'll find original concepts and a better way of doing things.

For the hunter, the tactical operator, the shooting sports, or the hardcore adventure outdoorsman, we invite you to explore our current designs. You'll find something that you can really use; use it hard, and use it well. And we'll be excited to show you what's around the next corner.

J34 JUST ONE

Weight: 7 lbs and 10 oz

Capacity: 4200 c.i.

This is the latest version of the pack that started a gear revolution, the legendary J34 Just One Pack™. As in, “if you’re going to own just one hunting pack, own a Just One.” The J34 is extremely versatile and it comes with the patented features that make Eberlestock packs unique.

Starting at an ultra-compact 2300 cubic inches, the built-in Cam Expansion System™ expands it to 4600 cubic inches. Add in a Super Spike Duffel™, and you get a 7500 cubic inch load hauler.

Features:

- Built-in hunting rifle Backscabbard™
- Vertically adjustable harness
- Hydration carry compatible
- Grapple Compression Straps™

MSRP: \$369

X1A3

Weight: 5 lbs and 9 oz.

Capacity: 1500 c.i.

Capable of carrying a compound bow and a rifle at the same time, the X1A3™ is the perfect day hunting pack for any season. Features include an exterior front pocket for quick access essentials, tubular side pockets for spotting scope access and a large back storage compartment for a hydration bladder or jacket.

The Gossamer Frame™ sheet is swappable with our Intex II™ tubular frame for more load hauling capabilities.

Features:

- Integrated rifle scabbard
- Ripcord Tether System™
- Quiet NT7 Microsuede™
- Spotting scope pockets

MSRP: \$229

RMEF TEAM ELK BANDIT

Weight: 2 lbs and 8 oz.

Capacity: 935 c.i.

Created in collaboration with the Rocky Mountain Elk Foundation, the RMEF Team Elk Edition Bandit Pack offers an impressive amount of space for its compact frame.

As the lightest pack in our everyday carry lineup, the H31 makes for the perfect pack to carry on daylong hunts and hikes. If you're looking for a pack that's extremely durable and functional beyond any other pack in the EDC category, the H31 Bandit is it.

Features:

- Full-access main compartment
- Top organizational lid
- Laser-cut MOLLE panel
- Slot for an adjustable hip belt

MSRP: \$149

M5 RMEF TEAM ELK

Weight: 7 lbs and 6 oz.

Capacity: 3,100 c.i.

Not only are you supporting a great cause, the conservation of wildlife and habitat, but you're also getting one of the most versatile all-in-one packs on the market. The ability to carry either a rifle or a bow, or both makes this the perfect pack for any hunting season.

Featuring deep side pockets for hydration or spotting scopes, grapple straps for packing out meat and our highly water-resistant NT7™ fabric, which keeps your gear dry while being quiet when stalking your prey.

Features:

- Front and top-loading access
- Spotting scope / hydration pockets
- Bow bucket and foldaway rifle scabbard
- Tubular Intex II™ frame

MSRP: \$389

RMEF PROUD PARTNER

10% of the proceeds from every sale of the Team Elk Edition packs are donated to the Rocky Mountain Elk Foundation®.

Their mission is to ensure the future of elk, other wildlife, their habitat, and our hunting heritage.

Help us make sure that future generations have the same opportunities that we enjoy today.

X1 EURO

Weight: 5 lbs and 13 oz.

Capacity: 2000 c.i.

The X1 Euro™ features excellent accessibility to the whole interior of the pack through top-loading and lower front-loading zippers. A fold-down shelf allows you to use the upper and lower chambers independently or as a combined space.

Generous storage pockets keep your smaller items organized and a full-width rifle scabbard keeps your hands free. Lightweight MOLLE-10 webbing provides mounting options for a variety of gear and accessories.

Features:

- Collapsible rifle scabbard
- Gossamer Frame™ sheet
- Quiet NT7™ or microsuede fabric
- Vertically adjustable harness

MSRP: \$269

GUNRUNNER

Weight: 4 lbs

Capacity: 1000 c.i.

The H2 Gunrunner™ is a minimalist, lightweight rifle pack with our patented Backscabbard™. This pack is designed for hands-free hunting and quick access to your rifle, and has just the right amount of stowage for a day's outing.

The top compartment is a good size for rangefinders, calls, etc., and the main compartment is sized for a day's worth of food and clothing. The Gunrunner is ideal for upland bird, treestand, or a lightweight Western day hunt.

Features:

- Built-in, fold-up rifle scabbard
- Slim profile
- Adjustable shoulder harness
- Lightweight design

MSRP: \$199

X2

Weight: 5 lbs

Capacity: 1500 c.i.

The compact X2™ is designed to carry sizable hauls with ease with our integrated Intex II aluminum frame. Oversized compression straps allow you to tightly secure game on the exterior of the pack. MOLLE webbing on the sides and bottom of the X2 makes it compatible with our Side Scabbards or ButtBucket for rifle or bow carry.

Ideal for saddle hunters, the ample FlexChassis™ folds down and acts as a comfortable seat.

Features:

- Side Scabbard™ compatible
- Integrated hip belt pouches
- Intex II™ aluminum frame
- ButtBucket™ compatible

MSRP: \$289 | \$329 Multicam®

THE EMOD™ SYSTEM

ONE FRAME, ENDLESS POSSIBILITIES

Our search for innovative solutions has brought us to the EMOD system. The concept is simple and elegant: endless configurations with an ultralight and ultra-capable mindset. EMOD has many crossover features like packs and accessories that serve multiple purposes.

Versatility isn't just a word we throw around—it is the lifeblood of our products. The quest for its perfection has catalyzed the first fully integrated line of modular backpacks.

F1T TALL MAINFRAME

Weight: 4 lbs and 9 oz.

Dimensions: 29.5"h x 11"w

At 3.5" taller than the F1, this tall version is recommended for people with longer torsos or those those that want the load lifters placed higher up along the shoulder girdle.

As one of the primary base EMOD platforms, and tested to hold more than 700 lbs., this ultra-rugged frame utilizes YKK zippers to allow the attachment of a variety of packs and accessories to fit any backcountry hunt. The F1T is fully adjustable and completely user configurable with endless combinations.

Features:

- Built-in Grapple Compression Straps™
- Zippered attachment points
- Laser cut MOLLE on main panel
- Adjustable ladder harness system

MSRP: \$299

F1 MAINFRAME

Weight: 4 lbs and 14 oz.

Dimensions: 26"h x 11"w

One of the primary base platforms for the EMOD™ system with a constantly growing number of accessories. Build it up to be a multi-day expedition pack, or go in light so you can come out heavy.

Tested to hold more than 700 lbs., this ultra-rugged frame utilizes YKK zippers to allow the attachment of a variety of packs and accessories to fit any backcountry hunt. The F1 is fully adjustable and completely user configurable with endless combinations.

Features:

- Built-in Grapple Compression Straps™
- Zippered attachment points
- Laser cut MOLLE on main panel
- Adjustable ladder harness system

MSRP: \$279

THE VAPOR SERIES™: ULTRALIGHT REDEFINED

VAPOR 2500

Weight: 1 lbs and 4 oz.
Capacity: 2500 c.i.

VAPOR 5000

Weight: 2 lbs and 6 oz.
Capacity: 5000 c.i.

VAPOR 7500

Weight: 2 lbs and 10 oz.
Capacity: 7500 c.i.

The Vapor is an ultra-minimalist pack that pairs with our F1 Mainframe™ using ultra-durable YKK zippers. When we designed the Vapor, we focused on maintaining our unparalleled durability and versatility, while keeping weight at the top of our priority list.

External features include extended-depth stretch pockets to retain drink bottles, spotting scopes, tripods, etc. The center front panel utilizes the same 140D two-way stretch material to create a zippered pocket for items requiring quick access. Camouflage options use 450D Aramid reinforced ripstop while solid colorways have 500D Nylon ripstop construction. Removable Duraflex HD 25mm buckles allow you to expand the pack from the frame and create a channel to carry meat bags or heavy loads close to body and center of gravity.

V25 Features:

- Front loading
- Ultralight design
- Stretch outer and inner pockets
- EMOD™ compatible

V50 & V75 Features:

- Front and roll-top loading
- Ultralight design
- Stretch outer and inner pockets
- EMOD™ compatible

MSRP: VAPOR 2500 \$169 | VAPOR 5000 \$229 | VAPOR 7500 \$249

KITE

Weight: 4 lbs and 11 oz.
Capacity: 3000 c.i.

The F7 Kite™ is an outstanding stand-alone ultralight pack that can also be combined with our F1 Mainframe™ system. Designed for the minimalist, the Kite’s capacity to weight ratio is best-in-class.

When used with our frames, detach the shoulder harness and hip belt for more weight savings. The F7 uses the ACH Hookup Kits™ to connect to our EMOD™ frames, resulting in a lightweight, modular, and expandable pack system.

Features:

- Roll-Top and front-loading
- Removable hip belt
- Dual hydration bladder compatible
- Waterproof zippers

MSRP: \$299

HOOK UP KIT,
ULTRALIGHT:
GATEKEEPER 6-PACK

Weight: 4 oz.
Dimensions: 28”w

This new hook up kit will allow you to attach EMOD™ compatible packs to our F1 Mainframe™ system.

Use these straps with either the Kite or Switchblade packs to compress the side, front or use inside the pack adding a versatile strap to secure any kind of load.

Features:

- Durable Nylon construction
- Light and tough quick attach hooks
- MOLLE compatible
- Versatile functionality

MSRP: \$39

BOLT ACTION SCABBARD

Weight: 1 lbs and 5 oz.
Dimensions: Dimensions: 34”h x 7”w x 3”d, with a 20” circumference opening

The Bolt Action Scabbard uses MOLLE webbing to attach to most Eberlestock packs. Most commonly, it is paired with the F1 Mainframe™ as part of Eberlestock’s EMOD™ system. Rifles with traditional hunting stocks and optics should fit inside the scabbard with ease. To confirm your rifle will fit, we recommend using string to measure the circumference of the rifle and optic at its largest point. A measurement less than 20.5” should fit without issue.

- Features:**
- Durable Nylon construction
 - MOLLE compatible
 - Hypalon muzzle cover with drain hole
 - EMOD Compatible

MSRP: \$70 | \$80 Multicam®

BATWING POUCH

Weight: 11 oz.
Capacity: 600 c.i.

The A6SB Batwing Pouch™ is an extremely versatile addition to most of our packs. Two Batwings can be coupled together on our F1 Mainframe™ system to build a great minimalist day pack, or they can be added to an EMOD™ compatible pack as a way to increase capacity.

The minimalist design allows the Batwings to be zipped apart and laid open for placing and securing meat or gear between them while they stay securely fixed to the frame.

- Features:**
- Hydration bladder pocket
 - Quick access front slip pocket
 - Daisy Chain webbing
 - EMOD Compatible

MSRP: \$49

ACCESSORY POUCHES

Weight: Large: 6 oz. Small: 4 oz.
Dimensions: Large: 5”h x 6”w x 2”d
Small: 6”h x 8”w x 2.5”d

Our accessory pouches are simply-designed, quality made pouches which can attach almost anywhere you find MOLLE webbing on an Eberlestock pack or accessory. The additional padding makes them optimal for carrying small but expensive items like rangefinders, GPS, and camera accessories. Most commonly worn on the hip belt for quick access to essential items, or the outside front of a pack. Both of the Accessory Pouches can also pair with the Chest Pack Harness to convert it into an ultralight minimalist chest worn pack.

- Features:**
- YKK Ultradurable zippers
 - 450D Nylon construction
 - MOLLE compatible
 - EMOD compatible

MSRP: Small \$29 | Large \$39

BUTTBUCKET

Weight: 11 oz.
Capacity: 600 c.i.

The ButtBucket™ is a universal compound bow or rifle carrier, made to mount onto Eberlestock packs that don’t already have a built-in bow or rifle carry option. It includes mounting straps that allow you to attach it to packs with MOLLE webbing, the F1 Mainframe™, or onto the lower compression straps of some packs. The included Ripcord Tether System™ allows you to secure your bow or rifle for hands-free hunting, but quickly release it for a quick shot.

- Features:**
- Hydration bladder pocket
 - Quick access front slip pocket
 - MOLLE compatible
 - EMOD compatible

MSRP: \$40

MULTILID

Weight: 1 lbs and 1 oz.
Capacity: 300 c.i.

The MultiLid™ uses MOLLE webbing to attach anywhere with compatible webbing, but is most often used and recommended at the top of the pack to function as a quick-access lid for essential items. The MultiLid features a large main open pocket as well as a dedicated water bladder sleeve that fits a standard 3L water bladder. On the underside of the MultiLid is a sleeve where the waist belt is stowed when the lid is pack-mounted. The MultiLid allows the user to downgrade from a pack to a shoulder or waist worn essentials-only go bag.

Features:

- Hydration bladder sleeve
- Stowable waist belt
- MOLLE compatible
- EMOD Compatible

MSRP: \$50

MULTIPACK ACCESSORY POUCH

Weight: 8 oz.
Dimensions: 6”h x 10.5”w x 3”d

The Multipack™ consists of 10 total pockets, ranging from buckle-top side pockets which work well for a GPS, wind detector, and other items of like size. The main compartment features an internal zippered pocket as well as 5 various sized elastic pockets. The Multipack was designed to attach anywhere that features molle webbing, but can also be mounted to the Chest Pack Harness using the 20mm buckles to work independently on the chest.

Features:

- 10 pocket accessory pouch
- MOLLE/compatible
- Compatible with Chest Pack Suspender Kit
- EMOD Compatible

MSRP: \$49 | \$54 Multicam®

LASER CUT UTILITY PANEL

Weight: 1 lbs and 5 oz.
Dimensions: 17”h x 9”w

The Laser-Cut Utility Panel™ provides a 4 × 16 MOLLE array. The Laser-cut Utility Panel attaches to nearly any of the Eberlestock® Modular System (EMOD) items, making it quick and easy to grapple items to the frame. Use it on the front the F7 Kite™ pack to add a MOLLE array, or inside as a MOLLE rack, load separator, or to secure a radio. Simply attach it to any standard MOLLE compatible pack via the ladder-lock hooks.

Features:

- Durable laminated Nylon construction
- MOLLE compatible
- Provides 4×16 MOLLE array
- EMOD Compatible

MSRP: \$49

ZIP-ON DRY BAGS

Weight: Large: 1 lbs and 1 oz. Small: 13 oz.
Capacity: 4000 c.i. | 6700 c.i.

A perfect compliment to your F1 Mainframe™, or J34 Just One™ pack. Increase capacity of any of these systems by zipping in either size dry bag for a lightweight load hauler. The roll-top lets you compress your load down and the taped seams keeps your gear dry.

Combine the J2DB/J3DB with a pair of Batwing Pouches™ to make a lightweight, capable, meat-hauling day pack.

Features:

- EMOD compatible
- Roll-top opening w/ taped seams
- Zippered attachment
- Waterproof

MSRP: J2DB \$70 | J3DB \$80

SUPER SPIKE DUFFEL

Weight: 1lbs and 10 oz.
Capacity: 2900 c.i.

As part of the EMOD™ system, the J3SD Super Spike Duffel™ increases your pack's capacity by a full 2900 cubic inches, attaches internally or externally to J-Series packs, and can also zip onto our F1 Mainframe™.

The Super Spike also includes a shoulder strap to make it a great standalone duffel bag for traveling or as a gym bag. Load it up and keep it in the car as a quick access, get-home bag.

Features:

- Zips to the J34 Just One Pack
- EMOD compatible
- Included shoulder strap
- Quiet NT7™ fabric

MSRP: \$70

DAGGER

Weight: 2 lbs and 2 oz.
Capacity: 340 ci.

The H7 Dagger™ is a lightweight, high-speed hydration pack that can be used solo or rigged to MOLLE webbing as a piggy-back hydration system. The Dagger can attach any of our scabbards to make a lightweight, ultra-minimalist day hunt setup.

The Dagger includes the 2 Liter Source™ Hydration bladder, but has enough space to fit some essentials, such as a jacket, food, or other small items.

- Features:**
- Included 2L Source bladder
 - 2 zippered pockets
 - Rifle scabbard compatible
 - MOLLE compatible

MSRP: \$129 | \$149 Multicam®

MINI ME

Weight: 3 lbs and 1 oz.
Capacity: 400/900 c.i.

The H1 Mini-Me™ includes a 2L Source™ hydration bladder to keep you in the field longer. It has multiple internal organizational pockets and features for compartmentalizing gear and a large main compartment for bulky items like clothing.

Unzip the scabbard tunnel to allow the integration of our A2LS Scabbard™ in order to comfortably and securely carry a rifle or shotgun. An included mesh bird bag can be deployed from the underside of the pack.

- Features:**
- Included 2L Source bladder
 - Deployable bird bag
 - Rifle scabbard compatible
 - Pull-out hip belt

MSRP: \$169

BANDIT

Weight: 2 lbs and 8 oz.

Capacity: 935 c.i.

As the lightest pack in our everyday carry lineup, the H31 Bandit™ is purpose-built for daylong hunts and hikes. The exterior utility panel features laser-cut MOLLE to allow the attachment of compatible accessories and pouches, and to carry a jacket or gear for quick access. The water bottle side pockets can hold a tripod or spotting scope, as the utility panel straps will secure them tightly. Inside the top lid you'll find small item organizers like a zippered mesh pocket and a pistol magazine pouch.

Features:

- Full-access main compartment
- Top organizational lid
- Laser-cut MOLLE panel
- Slot for an adjustable hip belt

MSRP: \$149 | \$169 Multicam®

UNDERCOVER BRIEF

Weight: 2 lbs and 2 oz.

Capacity: 600 c.i.

The B2 Undercover Brief is perfect for your iPad, a 15" laptop, documents, and all of your pens and personal gear. Most importantly it has a discreet, concealed-carry holster tapered pocket that'll hold any handgun from compact to full-frame automatic in an accessible, easy-access place.

The pocket is held closed by hidden magnets, making it hard to notice. When you're traveling, this is also a great place to stash your passport. The briefcase, perfected.

Features:

- Laptop and document sleeves
- CCW pocket w/ magnetic closures
- Internal small item organizers
- Discreet, minimalist design

MSRP: \$99

COMBAT OFFICE BRIEF

Weight: 3 lbs and 8 oz

Capacity: 850 c.i.

The B1 Combat Office Brief™ features tons of space for laptops, tablets, files, and anything else that may accompany you into the office or a multi-day business trip. The document pocket on the back has a zipper at its bottom, allowing you to secure the B1 to the handle of your rolling suitcase.

The laptop pocket is full zip-down, allowing the bag to be split open for TSA x-rays while leaving the laptop inside. The B1 also features our patented magnetic closure CCW pocket for quick access.

Features:

- TSA compliant laptop sleeve
- CCW pocket w/ magnetic closures
- Internal small item organizers
- Discreet, minimalist design

MSRP: \$149

LITTLE TRICK

Weight: 4 lbs and 6 oz.
Capacity: 1140 c.i.

The S27 Little Trick™ is a sleek EDC pack with at-the-office style and aesthetics. With two interior sleeves for laptop and documents, it's perfect for travel. It also features a hidden, quick-access CCW pocket as well as the ability to carry various carbines or long guns in the aft computer / scabbard sleeve.

An expandable bottom (up to 23.5") increases overall volume and lengthens the scabbard, allowing you to customize the pack for load size and weapon length.

- Features:**
- EMOD compatible
 - Roll-top opening w/ taped seams
 - Zippered attachment
 - Waterproof

MSRP: \$249

BIG TRICK

Weight: 6 lbs and 11 oz.
Capacity: 1920 c.i.

The S45 Big Trick™ will serve you well in any situation, but it was intentionally designed for one specific purpose — to allow comfortable and discreet carry of longer guns, such as a full-scale folding sniper rifle. Low-profile magnetic closures on both sides of the pack offer quick access to your handgun while the expandable bottom compartment increases overall volume and lengthens the scabbard, allowing you to customize the pack for load size and weapon length.

- Features:**
- Detachable harness & hip belt
 - Laptop and document sleeves
 - CCW pocket w/ magnetic closures
 - Expandable Scabbard (up to 11" barrel length)

MSRP: \$299

B3 HERCULES

Weight: 14 lbs

Capacity: 11682 c.i.

The B3 Hercules Duffel™ is an oversized rolling duffel bag designed to keep your gear organized, secure, and consolidated. Modular hook and loop panels allow you to partition off various sized compartments to divide gear or clothing. The Hercules also features 6 spacious external pockets, 3 on either side with the middle pocket also containing elastic sleeves for small item organization. An attached and stowable rain cover protects the entire bag from moisture or dust in the harshest of conditions.

Features:

- Hard shell bottom w/ servicable wheels
- Security YKK zippers
- Internal pockets and velcro dividers
- Includes stowable rain fly

MSRP: \$399 | \$429 Multicam®

CHERRY BOMB

Weight: 4 lbs.
Capacity: 820 c.i.

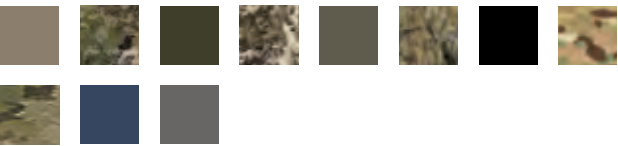

The S25 Cherry Bomb™ presents a unique mountaineering aesthetic and minimal profile. It features two main compartments: one “public” and one “private”. In the public compartment, there are organizational pockets, a laptop sleeve, and document sleeve. In the private compartment, there is enough storage to hold a rifle. The main weapon stowage compartment is the perfect length to discreetly carry a broken-down rifle, SBR, or pistol with an overall length of 24.5”.

- Features:**
- Low-profile, discreet design
 - Includes a stowable rain cover
 - Weapon carry; 24.5” OAL
 - Removable waist belt

MSRP: \$269

SWITCHBLADE

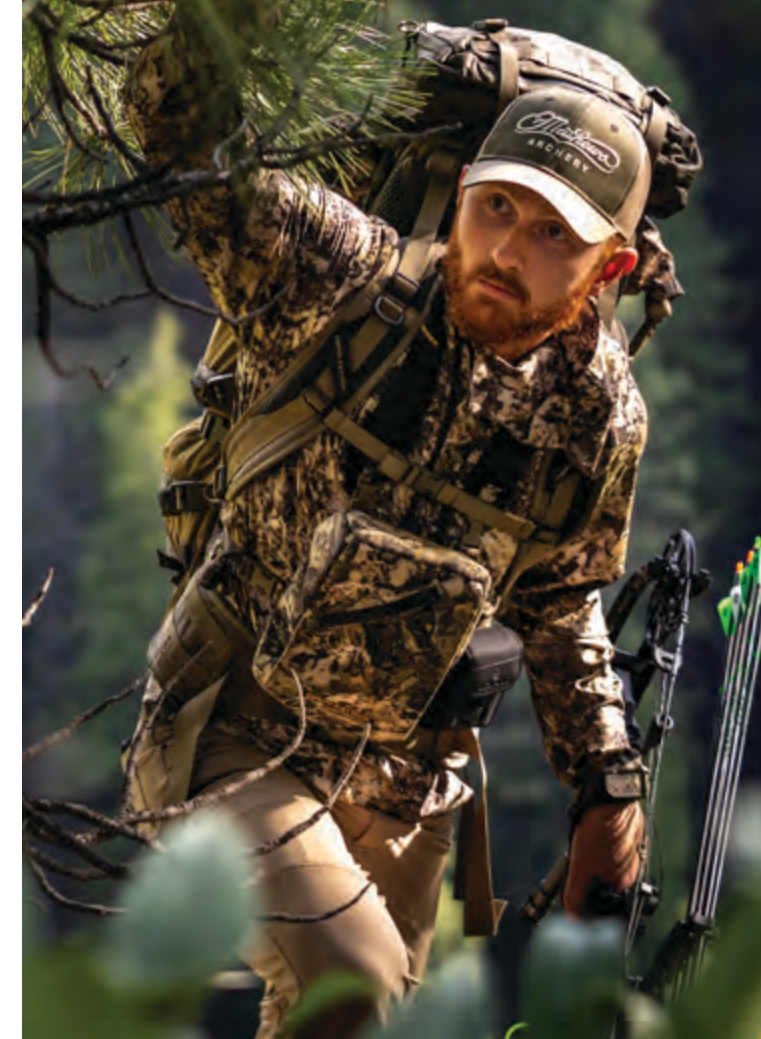

Weight: 3 lbs and 15 oz
Capacity: 1500 c.i.

The F5 Switchblade™ keeps a low profile, with maximum space and organization. Open the top lid pocket and you will find two magazine pouches, and other small organizing features. Inside you'll find a document divider for an iPad, laptop, or even a short-barreled rifle. The front of the pack features an oversized pocket for quick access to your important items. On each side is a pair of drawstring cup holder pockets, as well as a flat side-zip pocket. It also features a hidden, magnetic open, quick-access CCW pocket.

- Features:**
- Laptop and document sleeves
 - CCW pocket w/ magnetic closures
 - Hydration bladder compatible
 - Adjustable shoulder harness

MSRP: \$199 | \$229 Multicam®

SCOUT BINO PACK

Weight: 1 lbs and 1 oz

Dimensions: Large: 8"h x 6"w x 3"d
Small: 6.5"h x 5"w x 2.5"d

The Scout Bino Pack™ is an ultralight binocular harness and carrier system designed with a minimalistic mindset. It features a magnetic closure to make it easy and quiet to access your binos. There's a quick-access slip pocket on the backside to hold a handgun or rangefinder. The improved 3D mesh harness is comfortable and breathable and can be worn under a pack or removed to use the APSK Chest Pouch Mount Kit™.

Features:

- Low profile, 3D mesh harness
- Magnetic closure
- Front zipper pocket
- Pistol/rangefinder sleeve

MSRP: Small \$89 | Large \$99

NOSEGUNNER

Weight: 1 lbs and 4 oz
Dimensions: Top: 8”h x 7.5”w
Bottom: 6.5”w x 3.5”d

The A2CP Nosegunner™ is the perfect backcountry binocular or camera chest pack. It has two external zippered pockets for flashlights, game calls, extra ammo, and an interior zipper pouch for small item storage. The Nosegunner will fit most large size(12x and up) binos. There is also a rear slip pocket holster for a handgun or rangefinder.The improved 3D mesh harness is comfortable, breathable, and can be worn under a pack or removed to use the APSK Chest Pouch Mount Kit™.

- Features:**
- Low profile, 3D mesh harness
 - Magnetic closure
 - Front zipper pocket
 - Pistol/rangefinder sleeve

MSRP: \$129

SNIPER SLED DRAG BAG

Weight: E2B: 8 lbs and 4 oz.
E57B: 8 lbs and 5 oz.

Dimensions: E2B: 52"l x 14"w x 2.5"d
E57B: 57"l x 14"w x 2.5"d

The E2B and E57B Sniper Sled Drag Bags feature a triple-fold, tapered rifle bag design that folds flat into a shooting mat. An internal padded leaf divider separates the storage, making it an excellent two-rifle case. The removable harness system can be used with the rifle bag barrel up or barrel down. The included exterior pouches are perfectly sized for shooting accessories and can be removed for a slicker set up. The E2B fits rifles up to 52" and the E57B up to 57".

Features:

- Removable MOLLE pouches
- Interior MOLLE and mesh pockets
- Fold-in rifle crown protector included
- Internal divider panel

MSRP: E2B \$369 | \$389 Multicam®
E57B \$389 | \$429 Multicam®

TRIPLE WEDGE SHOOTING REST

Weight: 2 oz.
Dimensions: 6”l x 5.5”w x 3.25”d

Filled with just the right amount of polystyrene beads, the Triple Wedge™ is as close to weightless as a shooting-aid can get, yet provides firm support for your rifle. Easy to manipulate, it combines a handy size and innovative ramp shape. By changing the orientation you choose from three different wedge sizes to get the rough elevation support you need. Hand pressure allows for fine tuning the elevation and shape.

- Features:**
- Ultralight micro-styrene bead fill
 - (3) 25mm webbing straps for easy transport
 - Durable 1000D Nylon construction

MSRP: \$30

BUTTERFLY SHOOTING PILLOW

Weight: 1 lbs and 6 oz.
Dimensions: Buckled: 8.5”h x 11.5”l x 9”w
Unbuckled: 5”h x 22.5”l x 9”w

The ASP Butterfly Shooting Pillow™ should become one of your go-to range tools. You can use it as a straight-up box shaped pad, or open it to use its ramp shape or off-angle elements for stabilizing a position off of a rock, a vehicle, or whatever is handy. The Butterfly has two adjustable straps on top to tighten around an arm or secure it to an object. There are also two webbing loops that allow it to be tethered to your pack or body. The pad is filled with ultralight micro-styrene beads, make a very light, just right – firm but flexible – shooting rest.

- Features:**
- Textured inside and bottom for grip
 - Dual adjustable straps
 - Ultralight micro-styrene bead fill
 - Dual webbing loops for easy transport

MSRP: \$89

PACK MOUNTED SHOOTING REST

Weight: 4 oz.
Dimensions: 3.25”h x 5.75”l x 6”w

Our ultralight backpack mountable shooting rest is a perfection of the kind of rest that the Marine Corps Sniper School teaches its students to make. You can attach it to any 3-wide MOLLE panel using its built-in attachment clips.

This simple rest is a great lightweight alternative to shooting sticks, bipods, and hardware-based shooting rests.

- Features:**
- Durable 1000D Cordura® construction
 - MOLLE compatible
 - Built-in attachment clips
 - Quiet, ultralight platform

MSRP: \$35 | \$40 Multicam®

BANG BANG

Weight: 4 lbs and 11 oz

Dimensions: 22"l x 12"w x 10"d

The R1 Bang Bang™ was developed as a compact range bag to hold all of your essential gear and keep it protected from the elements. The polycarbonate base makes the R1 impervious to wet ground, rocks, debris and range dust. The main compartment features configurable, padded dividers to keep medical items, tools, camera gear, and range equipment safe and organized. The bottom case is perfect for handguns, tools, or even a compact carbine.

Features:

- Durable polycarbonate base
- Configurable padded dividers
- Padded shoulder strap
- Small item organizers

MSRP: \$199 | \$229 Multicam®

UPRANGER

Weight: 7 lbs and 5 oz.

Dimensions: 26"l x 14"w x 8"d

Inspired by a champion 3-Gunner who didn't like the normal sequence of dismounting a pack face-down and rolling the straps in the dirt, the R3 UpRanger™ changes the game. Drop the R3 on its polycarbonate outer face and unzip from the harness side for quick access to everything you need without unnecessary wear or dirt. Whether you use it for the range, or a durable and secure camera bag, the R3 UpRanger will take it all. Add on Sidewinder rifle cases for an all-in-one 3-Gun pack.

Features:

- Durable polycarbonate base
- Configurable padded dividers
- Padded, adjustable shoulder harness
- Removable side wing panels

MSRP: \$299

PADDED MAGIC CARPET SHOOTING MAT

Weight: 3 lbs and 5 oz.

Dimensions: Rolled Out: 8ft x 34" w
Rolled Up: 17"h x 9" Diameter

This is a simple and effective tool that the professional shooter will appreciate. When it's time to set up a shooting station, you simply hold the end and toss the mat out. With its weighted end, it unfurls and you're ready to go. It's long enough to cover the distance from below your knees to well in front of your barrel, so it is an effective muzzle blast dust suppression barrier. For comfort and insulated padding under the section of the mat which you'll lay on, choose the A2SM Padded Magic Carpet Shooting Mat. PVC backing makes it waterproof.

Features:

- Weighted end for easy deployment
- Waterproof PVC backing
- Small and compact for transport
- Strap and buckle closure

MSRP: \$80

SIDWINDER GUN CASES

Weight: ERM: 2 lbs and 3 oz.
ESM: 2 lbs and 7 oz.

Dimensions: ERM: 44"l x 15"w x 2.25"d
ESM: 53.5"l x 10.75"w x 2.25"d

The Sidewinder comes in two sizes: the ERM Sidewinder is an AR rifle-sized case, and the ESM Sidewinder is a Shotgun and Scoped Rifle Case. It's an excellent way to add a gun carrier to the R3 UpRanger Pack™ or Bang Bang Range Bag™. Each can be self-attached to MOLLE on packs. These high quality cases have a unique sleeve for cleaning rods, giving the shooter secure, quick access to their firearms maintenance tools.

Features:

- MOLLE compatible
- Designed to attach to either the R1 or R3 Range Bags
- Internal cleaning rod sleeve

MSRP: \$70 ERM | \$70 ESM

G4 OPERATOR

Weight: 11 lbs and 9 oz

Capacity: 4700 c.i.

The G4 Operator™ is the ultimate scout/sniper pack coming in at 4700 cubic inches. The integrated rifle scabbard folds into the bottom of the pack, and a removable LP1 MultiLid™ top can be used as a traditional fanny pack. The Intex II™ frame offers maximum weight carrying capability and is interchangeable with our other tubular frames. The Operator features two front-loading, separate compartments that can be combined and a deployable rain cover to keep your gear dry.

Features:

- Integrated Tactical Weapon Scabbard™
- Stowable rain fly included
- Included buttcover with scabbard
- Intex II™ aluminum frame

MSRP: \$499 | \$529 Multicam®

DESTROYER

Weight: 7 lbs and 11 oz.
Capacity: 3661 c.i.

The V69 Destroyer™ is an upgraded version of the modern mountaineering style backpack. Both top and front-loading capabilities makes getting to your gear a whole lot easier with a pack of this scale and the diaphragm system can separate the top and bottom compartments.

Grapple Compression Straps™ keeps your gear tight to your body and also acts as a mounting system for sleeping pads, tents, or even a rifle.

- Features:**
- Stowable rain fly included
 - Floating top lid acts as waist pack
 - Top and front-loading
 - Dual hydration bladder compatible

MSRP: \$429

BATTLESHIP

Weight: 8 lbs and 9 oz.
Capacity: 6100 c.i.

The V90 Battleship™ is an upgraded version of the modern mountaineering style backpack. Both top and front-loading capabilities makes getting to your gear a whole lot easier with a pack of this scale and the diaphragm system can separate the top and bottom compartments.

Grapple Compression Straps™ keeps your gear tight to your body and also acts as a mounting system for sleeping pads, tents, or even a rifle.

- Features:**
- Stowable rain fly included
 - Floating top lid acts as waist pack
 - Top and front-loading
 - Dual hydration bladder compatible

MSRP: \$489 | \$529 Multicam®

G3 PHANTOM

Weight: 9 lbs and 9 oz

Capacity: 2800 c.i.

Designed as the quintessential sniper pack, the G3 Phantom™ offers the ability to remove the bag and straps from the rifle scabbard, which can then be combined with the buttcover to make a drag bag with its dedicated drag loop. The Phantom is a front-loader with various sized pockets for organization and MOLLE inside and out for adding on any pouches you might need. A fold-down shelf can be used to divide the main compartment into upper and lower chambers.

Features:

- Removable Tactical Weapon Scabbard™
- Stowable rain fly included
- Included buttcover with scabbard
- Internal MOLLE and organization shelf

MSRP: \$449 | \$469 Multicam®

TERMINATOR

Weight: 9 lbs and 15 oz.
Capacity: 4100 c.i.

The F4 Terminator™ is the latest and lightest edition of the Terminator series. The Intex II™ frame offers maximum weight carrying capability for an excellent expedition sized pack, while the pack design allows you to stay organized with multiple integrated pouches. The included rain cover in the bottom zippered pocket keeps your gear dry and a removable LP1 MultiLid™ top can be used as a traditional fanny pack when you need to go as light as possible.

- Features:**
- Removable LP1 MultiLid top
 - Top and front-loading
 - Rifle scabbard compatible
 - Stowable rain fly included

MSRP: \$489 | \$529 Multicam®

TERMINATOR XL

Weight: 10 lbs
Capacity: 6100 c.i.

The F4 Terminator XL™ is the larger version of our latest and lightest edition of the Terminator series. The Intex II™ frame offers maximum weight carrying capability for an excellent expedition sized pack, while the purposeful design allows you to stay organized with multiple integrated pouches. The included rain cover in the bottom zippered pocket keeps your gear dry and a removable LP1 MultiLid™ top can be used as a traditional fanny pack when you need to go as light as possible.

- Features:**
- Removable LP1 MultiLid top
 - Top and front-loading
 - Rifle scabbard compatible
 - Stowable rain fly included

MSRP: \$529

G2 GUNSLINGER II

Weight: 7 lbs and 12 oz
Capacity: 2100 c.i.

The G2 Gunslinger II™ is a mid-sized tactical pack with a full-width scabbard to better accommodate weapons with larger cross-sections or bulky optics. The wide scabbard also allows it to serve as an excellent laptop or military radio compartment. Even with the scabbard folded up, it will fit most short-barreled rifles perfectly. The G2 features a 2100 cubic inch capacity and comes standard with our tubular Intex-II™ frame system, fully adjustable shoulder harness, and padded hip belt.

Features:

- Fold-up rifle scabbard
- Top and front-loading
- Tubular Intex II frame
- Small item lid storage

MSRP: \$399 | \$429 Multicam®

HISPEED II

Weight: 5 lbs and 10 oz

Capacity: 1800 c.i.

The X41 HiSpeed II™ has a unique contoured shape that tapers at both the top and the bottom, giving the pack and excellent close-to-the-body ride. The X41 is fully compressible with pairs of side-mounted compression straps which draws the load upwards to optimal position over the wearer's center of gravity. The main compartment features a fold-away shelf to segregate or combine your space, a mesh zippered pocket, and hydration, laptop and document sleeves.

Features:

- Internal fold-down organization shelf
- Laptop and document sleeves
- Hydration carry sleeve
- MOLLE-10 lightweight webbing

MSRP: \$289 | \$329 Multicam®

LODRAG II

Weight: 6 lbs and 15 oz
Capacity: 2400 c.i.

Designed to be a highly functional, lightweight tactical pack, as well as incorporate a tactical weapon-sized scabbard, the X31 LoDrag II™ has been a staple in the precision rifle world.

Inside the main compartment, the LoDrag II features a fold-away shelf to segregate the top and bottom load space, laptop and document sleeves, and a hydration sleeve for our WX2L and WXP3L hydration systems. Compatible with several frame options.

- Features:**
- Integrated rifle scabbard
 - Fold-away shelf divider
 - Hydration carry sleeve
 - Laptop and document sleeves

MSRP: \$349 | \$369 Multicam®

X31 LoDrag II shown here with Intex II frame in custom configuration — as taught at Hat Creek Training.

HALFTRACK

Weight: 6 lbs and 8 oz

Capacity: 2150 c.i.

At 2150 cubic inches, the F3M Halftrack™ makes for a great 3-day pack with a large main compartment for all of your essentials. The Halftrack features a zip-top pocket and a large front zip compartment optimized for carrying PRC-117 type radios. Two large exterior side pockets for two 3-liter hydration bladders and MOLLE webbing around the pack gives you the ability to add any pouches and accessories you might need. A stowable rain fly keeps the elements out and your gear dry.

Features:

- Fold-up rifle scabbard
- Top and front-loading
- Tubular Intex II frame
- Small item lid storage

MSRP: \$349 | \$369 Multicam®

FACTRACK

Weight: 7 lbs
Capacity: 1910 c.i.

At 1910 cubic inches, the F3F Fac Trac™ makes for a great 3-day pack with a large main compartment for all of your essentials. Designed primarily for Forward Air Controllers, the F3F pack features a large front and a zip-around top opening optimized for carrying PRC-117 type radios. Two large exterior front pockets for quick-access and MOLLE webbing around the pack gives you the ability to add any pouches and accessories you might need.

Features:

- Internal fold-down organization shelf
- Dual internal hydration bladder sleeves
- Internal PRC-117 Radio rack
- Stowable rain fly included

MSRP: \$349 | \$369 Multicam®

TOMAHAWK

Weight: 8 lbs and 2 oz
Capacity: 3100 c.i.

The F53 Tomahawk™ is a long-range pack that's stripped of non-essential features, resulting in a clean and efficient all-purpose load hauler. The no-shelf Intex II frame combines the best characteristics of internal and external frames, giving the F53 outstanding load-bearing comfort. The LP1 MultiLid™ top doubles as a removable fanny pack. There are two bottle pockets, two side saddlebags, and the main compartment is accessible through the top or front.

- Features:**
- Removable LP1 MultiLid top
 - Top and front-loading
 - 2 full-length side saddlebags
 - Padded shoulder harness

MSRP: \$389 | \$429 Multicam®

LITTLE BROTHER

Weight: 4 lbs and 4 oz.
Capacity: 1800 c.i.

The G1 Little Brother™ is a great stand-alone 3-day pack with the added benefit of being compatible with our J51 Warhammer™ as well as our EMOD™ system. The expansion tunnel allows you to insert any of our rifle scabbards for hands-free rifle carry.

The G1 features both top and front-loading, lightweight laser-cut and traditional MOLLE, as well as pockets for hydration bladders, making the Little Brother the perfect pack for mid-range use.

- Features:**
- Front and top-loading
 - Rifle scabbard compatible
 - Dual hydration bladder sleeves
 - Internal PRC-117 Radio rack

MSRP: \$249 | \$269 Multicam®

SKYCRANE II

Weight: 12 lbs and 4 oz.
Capacity: 4475 c.i.

The J79 Skycrane II™ is a modular, load-bearing system consisting of three primary bags: The base J79 pack, the removable G1 Little Brother™ and the LP1 MultiLid™. A completely scalable system, the J79 is built around a 2,300 cubic inch base pack that employs our patented Cam Expansion System™.

Range all the way down to a fanny pack, or up to a 4,475 cubic inch freighter, the Skycrane II can carry whatever your mission requires.

- Features:**
- Scalable from 2,300 to 4,475 c.i.
 - Modular, 3 primary bag system
 - Includes stowable rain fly
 - Grapple Compression Straps™

MSRP: \$599 | \$629 Multicam®

WARHAMMER

Weight: 7 lbs

Capacity: 2050 c.i.

Built around Eberlestock's innovative Intex II™ aluminum frame, the J51 Warhammer™ is a great load-bearing, 3-day pack. The two large butterfly compartments helps you organize your gear and increase storage capacity by rotating them outward. The J51 can be adapted for more capacity by zipping in a J3SD Super Spike Duffel™, or built into a higher capacity version of our Skycrane II™ by adding a G1 Little Brother™ and LP1 MultiLid™.

Features:

- Large butterfly compartments
- Rifle scabbard compatible
- Hydration carry compatible
- Modular, expandable design

MSRP: \$399 | \$429 Multicam®

2 LITER / 3 LITER HYDRATION SYSTEM

Weight: 10 oz.

Capacity: 2 liters / 3 liters

Made by Source®, our premium bladders are BPA-free and use patented anti-bacterial technology. The Glass-Like™ liner helps to preserve your bladder and prevents plastic taste occurring. We've added our own specifications so that this bladder will fit well with our packs and so that it will hold up in the demanding conditions that our customers will put them through. Special standard features include a weave covered insulated drink tube, a lockable bike-bottle style push-pull drink valve with a dirt shield. Dual-fill options allow open-end access or use of a screw-off Nalgene size cap.

Features:

- BPA free
- Lockable push valve
- Anti-bacterial technology

MSRP: \$40 2L, \$44 3L

SCOPE COVER AND CROWN PROTECTOR

Weight: 12 oz.

Dimensions: 6.5"h x 18"l x 2"w

The ARSC-ARCP Scope Cover and Crown Protector is our refined design for a basic piece of kit that military and police snipers use. Features a Mid-CG Carry handle, flip-open Dope Card viewer, and split velcro covers on the scope cover to allow use with a variety of weapon configurations. Velcro inside of the Crown Protector gives a snug fit against most barrel sizes and front sight configurations. Includes loop velcro name patch panel. Adjustable to all barrel lengths.

Features:

- Dope Card viewer
- Carry handle
- Adjustable to a variety of barrel lengths
- Velcro name patch panel

MSRP: \$79 | \$89 Multicam®

SADDLE BAG

Weight: 10 oz.

Dimensions: 17"h x 5"w x 3"d

Use the Saddle Bag to add about 3 liters capacity to our packs. Use them for additional gear storage, or when paired with our hydration bladders, they're a great way to externally mount hydration on a pack so that the bladder is easily accessible.

MOLLE compatible, it can mount to a variety of bags and platforms, including our EMOD™ System. The Saddle Bag is perfectly sized for our 3L hydration unit.

Features:

- Durable Nylon construction
- MOLLE compatible
- Buckle closure
- EMOD Compatible

MSRP: \$29 | \$35 Multicam®

**TACTICAL WEAPON
SCABBARD**

Weight: 5lbs and 8 oz.

Dimensions: 36 - 60"l x 12"w
(Adjustable Length)

Our Tactical Weapon Carrier™ is a unique variable capacity tactical scabbard. It is expandable and collapsible in both circumference and length, the muzzle end is reinforced with hypalon, has drain ports, and a drag loop. It can also be used as the foundation for a minimalist pack: add a shoulder harness and a set of our Accessory Straps, and the Tactical Weapon Carrier becomes a BackScabbard™ pack, to which you can add an assortment of pockets and build your own modular pack system.

Features:

- MOLLE compatible
- Includes butt cover
- Grasp/carry handles along sides
- Fully encloses a weapon up to 60" long

MSRP: \$149 | \$179 Multicam®

INDITAK POUCH

Weight: 9.6 oz.

Capacity: 130 c.i.

Dimensions: 9"h x 5.5"w x 3"d

The IndiTAK™ (Individual Trauma Aid Kit) is outfitted with elastic bands to hold essential items in a first-rate IFAK trauma kit such as bandaging, tourniquets, etc.. The IndiTAK features a full-frontal view pouch that incorporates two external tourniquet sleeves which double as 5.56 mag pouches. It has a tear-away MOLLE back which allows it to be mounted to a pack, to other Velcro mating surface, or simply transferred to a waist belt.

Features:

- MOLLE compatible
- Rip-away IFAK style velcro mount
- Side shock cord tourniquet keepers
- MOLLE 10 webbing on front and sides

MSRP: \$59 | \$64 Multicam®

RAIN COVERS

Weight: 9 oz.
Dimensions: Large: 40”h x 40”w x 18”d
Small: 35”h x 30”w x 15”d

Eberlestock Reversible Rain Covers are a compact and excellent addition to any pack. We know how important it is to keep your stuff dry when you’re out in the weather, so we’ve made covers that will give you every option. These are designed to cover either the entire pack and a weapon that is being carried, or just the pack itself so that you can pull a gun from the scabbard. The blaze orange side is a great way to flag your pack if you remove it to make a stalk.

- Features:**
- Reversible colors
 - Waterproof polyurethane-coated Nylon
 - Adjustable coverage for scabbards
 - 2 sizes for different capacity packs

MSRP: \$45

CIRRUS ULTRALIGHT DRY BAG

Size: 3, 5, 10, 20, 35 Liters
Capacity: 183, 305, 610, 1220, 2135 c.i.

The Cirrus Ultralight Dry Bag series consists of five various sized, high-vis, roll top dry bags to ensure your gear stays dry, clean and protected from the elements. Cirrus Dry Bags can also be used as a primary organization feature by allowing the compartmentalization a of various gear without adding a handful of weight to your kit. Size labels are printed in black to create high contrast for easy identification when using multiple bags and various sizes. The roll top features a simple D-loop for additional security.

- Features:**
- Ultralight, durable ripstop construction
 - Multiple sizes and dimensions
 - D-loop for easy, secure attachment
 - High-vis and labeled for quick identification

MSRP: \$19 3L, \$24 5L, \$29 10L, \$34 20L, \$39 30L

DOPPEL:GANGER® CAMOUFLAGE

VERSATILE AND EFFECTIVE FOR ANY ENVIRONMENT

The Doppel:Ganger line of camouflage utilizes dual image technology by layering an abstract veil over a defined pattern. The consistent contour of leaves and brush is mimicked by the pattern while the veil provides a second layer. Doing so forces the eye to focus on a single dimension while the other fades out of focus, introducing excellent contrast and depth.

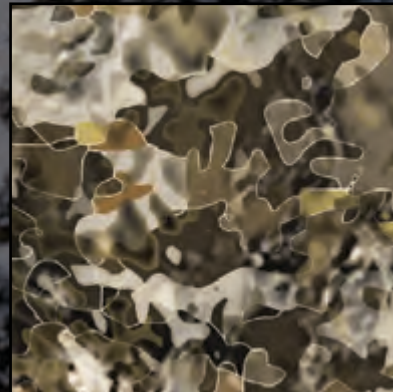

The color palette of DG:Mountain targets dark timber environments with its various shades of green. DG:Mirage pulls from the iconic colors of the western high desert, pairing earth tones with the subtle hues of purple found in sage brush. Finally, DG:Skye provides the highest level of contrast to conceal you against the skyline, whether on the arid ridgelines of the west or in a treestand out east.

AIRBASE BASELAYER
LS TOP

Sizes: S, M, L, XL, XXL

The specialized weave technology of the Airbase Baselayer Top creates air pockets and allows for the wearer to self-thermoregulate and maintain critical core temperature. Due to the net-like weave, the Airbase makes significantly less contact with the skin than traditional base layers, and in turn wicks sweat and moisture away from the body more efficiently than any other. This means that even when wet, the air pockets are able to remain warm to maintain body heat while also accelerating the ventilation process.

Features:

- Patented Airbase Weave technology
- Knitted collar and wrist cuffs
- Efficient moisture-wicking
- Excellent warmth-to-weight ratio

MSRP: \$79

AIRBASE BASELAYER
BOTTOM

Sizes: S, M, L, XL, XXL

The specialized weave technology of the Airbase Baselayer Bottom creates air pockets and allows for the wearer to self-thermoregulate and maintain critical core temperature. Due to the net-like weave, the Airbase makes significantly less contact with the skin than traditional base layers, and in turn wicks sweat and moisture away from the body more efficiently than any other. This means that even when wet, the air pockets are able to remain warm to maintain body heat while also accelerating the ventilation process.

Features:

- Patented Airbase Weave technology
- Knitted collar and wrist cuffs
- Efficient moisture-wicking
- Excellent warmth-to-weight ratio

MSRP: \$69

BRUNEAU HOODY

Sizes: S, M, L, XL, XXL

The Bruneau Hoody has become our go-to, all-purpose outdoor shirt. Stay in the hunt and out of the sun with its UPF30+ protection factor. Features include 4-way stretch polyester, long sleeves with thumbholes, a fitted hood, and half-face panel zip. Its ultralight, moisture-wicking stretch fabric make it a performance layer for any climate or environment. Regardless of where and how you hunt, the Bruneau Hoody will be your new favorite shirt that will keep you comfortable and protected.

Features:

- Ultralight 4-way stretch fabric
- Half-face panel zip
- Fitted hood
- UPF30+ protection

MSRP: \$129

OWYHEE FIELD SHIRT

Sizes: S, M, L, XL, XXL

Whether you're out fishing, hiking, or hunting, the Owyhee Field Shirt™ will keep you cool in the warmer seasons and is perfect for upland game hunts. Lightweight, noise-reducing fabric maintains durability against abrasion. The full-front snap buttons allow for quick and easy wear. Dual chest pockets allow stowage of small items, and a vented, caped back allow for constant heat displacement and breathability. 4-way stretch fabric allows freedom of movement in harsh terrain.

Features:

- Heat displacing caped back
- Quiet brushed finish fabric
- Dual chest pockets & quick zip pocket
- 4-way stretch fabric

MSRP: \$79

BENNETT MOUNTAIN VEST

Sizes: S, M, L, XL, XXL

When an insulation layer is too much but your baselayer isn't enough, the Bennett Mountain Vest™ is the perfectly simple and efficient piece to keep you comfortable and mobile.

With a low-pile fleece for light insulation, the Bennet Mountain is perfect for early-season cool conditions in the mornings and evenings. An athletic, fitted cut and 4-way stretch fabric move with you with minimal bulk or resistance.

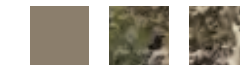

Features:

- Soft and comfortable low-pile fleece
- Left interior zip chest pocket
- Tall collar with zipper garage
- 4-way stretch fabric

MSRP: \$129

DIAMOND PEAK VEST

Sizes: S, M, L, XL, XXL

The Diamond Peak Vest™ is a true high-performance technical apparel piece that packs an incredible warmth-to-weight ratio. 80g Primaloft® Gold insulation is featured throughout the entirety of the Diamond Peak. This insulation is also extremely packable, allowing the Diamond Peak to be condensed into a compact state within its own internal chest pocket. A DWR water-repelling coating allows protection against mild wet conditions, while the fabric itself remains ultra-breathable to promote ventilation.

Features:

- 80g Primaloft® Gold insulation
- Proprietary waterproof membrane
- Large cell-phone pocket
- Two oversized, fleece-lined hand pockets

MSRP: \$189

CACHE PEAK JACKET

Sizes: S, M, L, XL, XXL

An excellent midweight inner or outer layer, the Cache Peak Jacket™ is a mid-to-late season piece when warmth and comfort is the priority. The internal lining features a high-pile fleece for soft-to-skin comfort. Brush-finished fabric provides excellent noise reduction while maintaining extreme durability.

The outer shell is made of breathable, 4-way stretch fabric and is also DWR treated to protect against light moisture.

Features:

- Premium fleece liner
- 4-way stretch, DWR outer shell
- Internal zip chest pocket
- Deep, fleece lined pockets

MSRP: \$189

LOST RIVER JACKET

Sizes: S, M, L, XL, XXL

This jacket was inspired by the technical ascents and backcountry trails of the Lost River Range. Offering the best in class wind/water protection for a midweight jacket, this featherweight piece should be a staple in every kit. Featuring 80g Primaloft® Gold insulation, packable into its inside-chest pocket, breathable, and touting a superior warmth-to-weight ratio, this jacket is built to perform. Two oversized fleece-lined hand pockets are designed to allow you access while wearing a pack with a hip belt.

Features:

- 80g Primaloft® Gold insulation
- Proprietary waterproof membrane
- Ultralight and packable
- Two oversized, fleece-lined hand pockets

MSRP: \$229

AFTERBURNER PANT

Sizes: S, M, L, XL, XL, XXL (Reg)
M, L, XL (Long)

Technical, versatile, lightweight and built to last. The Afterburner™ pant brings the Eberlestock® approach to a great pair of hunting pants. Made of 4-way stretch polyester with a DWR finish, the Afterburners provide a fitted, athletic cut that gives unrestrained freedom of movement.

Afterburners feature a gusseted crotch, darted knee construction, and a tapered cuff to keep debris out of your boots. Scuff guards on each cuff protect from abrasion.

- Features:**
- Thigh SpeedVents™ with bug screens
 - Dual cargo pockets on right thigh
 - Dual, secure, rear zip pockets
 - Quiet, breathable, DWR finish fabric

MSRP: \$169

SALMON RIVER PANT

Sizes: S, M, L, XL, XL, XXL (Reg)
M, L, XL (Long)

Our most versatile pair of pants, fitting for the backcountry or as a perfect every day carry option. Featuring a lightweight and robust 4-way stretch fabric, the Salmon River Pant moves with you for unrestricted freedom.

The Salmon River’s feature seven pockets for all of your EDC needs, as well as seven belt loops to keep your pants riding comfortably without sagging. Finally, a DWR finish keeps you comfortable and dry.

Features:

- Zippered pocket on the right thigh
- Lightweight, tough design
- Gusseted crotch
- DWR Finish

MSRP: \$129

TRINITY PEAK JACKET

Sizes: S, M, L, XL, XXL

The Trinity Peak™ was built for the most extreme, athletic and active hunters in the woods. Eberlestock’s proprietary membrane allows unparalleled breathability to shed heat and moisture caused when the weather breaks or traversing steep terrain. 20K+ waterproofing and YKK waterproof zips will keep you dry in wet conditions, and for the most extreme weather, the Trinity Peak features a storm collar at the neck, stretch storm cuffs at the wrist, and cinch cords at the hood and waistline to truly lock out all moisture.

- Features:**
- Rugged Four-Way Stretch Material
 - Fully Taped Seams
 - Pit Zips, Storm Hood and Inner Sleeve Cuffs
 - Proprietary 20K+ Waterproof Membrane

MSRP: \$429

THUNDERBOLT MOUNTAIN PARKA

Sizes: S, M, L, XL, XL, XXL

The Thunderbolt Mountain Parka has all of the must-have features you would expect from our warmest insulation layer. 133g PrimaLoft® Gold Insulation in the body and 80g in the arms and hood, and 10K breathability / 10K waterproof rating with seam-sealing.

High-cut hand pockets keep you warm and allow easy access even with a hip belt on. Adjustable cuffs, hem and hood keep you protected against any weather.

Features:

- PrimaLoft Gold® Insulation
- Underarm zippers for heat management
- Quiet, brush-finished fabric
- DWR finish

MSRP: \$389

A LOOK AHEAD

It cannot be overstated how proud the Eberlestock team is of the strides taken recently. In true form we will venture onward into the coming year(s) with a focus on innovation, quality and excellence to continue building the unparalleled legacy of our brand. On the immediate horizon is a technical apparel line which we believe will establish new standards for performance apparel; as well, the pack and gear selection will become more expansive and specialized for the most extreme conditions.

We'd like to thank our partners, ambassadors, and friends who have helped Eberlestock succeed and grow into the company it is today. We appreciate the unwavering loyalty and support, and we'll keep striving to make the most capable and innovative outdoor products in the world.
