MISSION '24 | GET OUT THERE ...

GET OUT THERE ...

In 1985, Eberlestock was born with the intent and resolve to redefine gear and equipment as we knew it. Surrounded by legendary terrain ranging from austere alpine forests to swaying grassland plains, Idaho supplies the perfect proving ground for our ever-evolving product line. Our storied history of bomb-proof construction, adaptable systems and forward-thinking design allows Eberlestock to solve even the most complex and demanding challenges. Whether it's a trip to generational hunting grounds or a deployment to the shifting battlefield of the 21st century, our roots run deep where gear makes the difference. Eberlestock provides the solution and the confidence to **GET OUT THERE ...**

MISSION EMOD

EBERLESTOCK MODULAR SYSTEM

Since the early years of the Global War on Terror, Eberlestock has innovated via proprietary design concepts gleaned from the alpine hunting world and global battle spaces. Inspired to provide leading solutions for the extreme demands of the operator, we adapted our Modular Hunting System to fulfill the needs of the military by creating our Mission EMOD System.

MISSION ASSAULT PACK | MULTICAM

BEHIND THE MISSION

Much like the unforeseen challenges and variables presented in every alpine hunt, the success of each mission rests on the ability to adapt and improvise. Military Operators must demand the highest level of durability and reliability from the gear they select to get the job done.

Leaving no detail to chance, Eberlestock designers worked directly with Air Force Special Operations, Naval Special Warfare, and other government agencies to test and evaluate various prototypes.

MISSION FRAME

MSRP \$249

The foundation of Mission EMOD, the Mission Frame, provides a rugged, modular, and compact starting point for your new loadout. With countless hours spent on testing and development alongside SOF Operators from every branch, this frame was designed to fit and function seamlessly alongside your equipment both on and off your person.

WEIGHT | 2 LB 15 OZ

ASSAULT PACK

MSRP \$149

Constructed from the ground up to be right at home in the stack, the Assault Pack pairs with the Mission Frame for a stream-lined, load bearing system. With a host of organizational features, secure and adjustable fit, and expedient access to the interior, the Assault Pack keeps you on target. The ability to further add accessories and features via the Mission EMOD system only furthers this pack's capability.

MEDIC PACK*

MSRP \$249

A medic's mobile workstation, the Medic Pack is a curated solution to the challenges presented by trauma medicine. With two pockets to distinguish supplies and a MOLLE exterior to supplement storage, no space is wasted. Featuring an encyclopedic main compartment designed with tear away pouches, accessing your equipment has never been more effective and efficient.

* Medic pack does not include medical supplies

MISSION EMOD ASSAULT PACK

With Mission EMOD, the pack is just the beginning. Offering a variety of ways to add functionality and features to the Assault pack, the EMOD system can be adjusted at a moment's notice to meet the current objective. From pre-staged storage additions like the Side Wings, to adaptive storage solutions like the Load Panel, the Assault Pack is built around the needs of the operator.
