

Milan News: Scholten & Baijings

April 4, 2014 in [Events](#) with [0 Comments](#)

SALONE DEL MOBILE, MILAN 2014

For those visiting Milan here is a summary from Scholten & Baijings:

LUCE DI CARRARA / SOLID PATTERNS

Scholten & Baijings created a series of marble tables for the Italian company Luce di Carrara in Tuscany. The five tables are being shown for the first time at the prestigious and world-renowned Milan design gallery Spazio Rossana Orlandi. They are unique organic shapes made from the finest Italian marble and manufactured with the aid of state-of-the-art machinery.

J. HILL'S STANDARD / ELEMENTS

These new contemporary crystal glass designs by Scholten & Baijings aim to revive the Irish hand-cut crystal industry based in Waterford. Elements consists of an extensive range of cutting techniques, built up on individual glasses and across the range of glass types. Glass sizes are not prescriptive and suit a multitude of uses: from whiskey to wine to water. An elegant jug and decanter complete the series.

MOUSTACHE / STRAP CHAIR

To commemorate its fifth anniversary, French furniture maker Moustache presents the Strap Chair, a new chair design by Scholten & Baijings. The stackable, tubular frame chair for this French furniture brand is lightweight and ideal for outdoor use. The coloured stripe-patterned straps are especially designed and manufactured in France. The braiding and the straps create unusual colour combinations. It is the ideal chair for all seasons.

MOOOI / COLOUR GLOBE

International furniture brand Moooi is hosting a grand and lavish presentation with, among other things, the outcome of its new collaboration with Scholten & Baijings, a collection consisting of three glass chandeliers. The three pendant lights are made in two layers of fine mouth-blown glass and run parallel in a rounded embrace of playful details and colourful contrasts that optically blend into each other, generating a dynamic effect.
