SWISSKUBIK PROGRAMMING

<u>VIA USB WIRE:</u>

1. Download the SwissKubik programming software from Google Chrome:
   https://chrome.google.com/webstore/detail/swisskubik/galjfoecleeipggjkfaenfkbphmeaofi/related?hl=en
2. Click add to Chrome
3. Click Launch App
4. Plug in the Masterbox to your computer (Mac or PC) via the USB provided with the winder.
5. Click scan and the winder should pop up and you can customize various functions such as the amount and direction of rotations.

<u>BLUETOOTH (available on winder as of 06.2019):</u>

1. Download the SwissKubik on the App store to your iPhone or Android
2. Turn on your Masterbox winder
3. The winder should pop up and you can customize various functions such as the amount and direction of rotations.

<u>AFTER SALES SERVICE (SAV):</u>

We are now equipped to handle all back ordered repairs or pending issues you may have had in the last years. Simply contact us or send us your repairs at the address on this letter.

Feel free to contact us if you have any questions.
