# jackfruit chews

Like nature's fruit roll-up, our sticky, sweet jackfruit chews are sure to tantalize your tastebuds.

Never heard of jackfruit? When fresh, this massive tropical fruit has a sticky, meaty texture that makes for a finger-licking eating experience, but when dried the texture is tamed and only the bold, sweet flavor remains.

Rich in fiber, antioxidants, and B-Complex vitamins, jackfruit helps boost energy levels and support nutrient absorption. When we add powerhouse spices and flavors like ginger, turmeric, lime, and chili to make our Jackfruit Chews, this super fruit is taken to the next level.

## #SnackOnPurpose

Amäzi is a mindful food company partnering directly with farmers groups and small businesses in Uganda to produce our unique, healthy snacks. By promoting connected, community-rooted supply chains, we aim to encourage job creation, business growth, and local value chains.

## our non-negotiables

---

### Transparency

We care about sourcing ethically and directly. We know the who, where, and how behind our growing and production.

### Quality

We guarantee clutter-free: organically grown, clean ingredients, free of highly refined oils, sugars, grains, or preservatives.

### Opportunity

We aim to promote relationship-driven supply chains. From the farm, to production, to your hands, we serve as the market connection — capacity building and tying all the pieces together to encourage creative production and conscious consumption.
