DIRECTIONS:

1. Power wash and clean the equipment surface; allow to dry.
2. Apply coating to mower deck, blades, or snowplow - as well as any other exposed metal and painted surfaces - by spraying, brushing, or rolling.
3. Equipment may be used immediately after application, but best results are obtained when coating is allowed to dry for 30 minutes. For maximum protection, apply coating at the end of each work period. Several applications throughout storage periods will preserve equipment.

DISPOSAL: Dispose of contents/ container to comply with local/regional/ national/international regulations.
